

AMUNDSEN REPORTS HE REACHED POLE; SCOTT WIRE FALSE

NORWEGIAN EXPLORER DENIES SENDING MESSAGE OF SCOTT'S EXPEDITION AND CLAIMS CREDIT HIMSELF.

ARRIVES AT HOBART

Captain Alone Lands at Tasmanian Port and No One is Allowed on Vessel—Norwegian Papers Receive News.

Christiana, Norway, March 8.—Two local newspapers today received dispatches from Captain Roald Amundsen announcing that he reached the South Pole on December 14, 1911. The dispatches were sent from Hobart, Tasmania, where Amundsen arrived yesterday.

The dispatches read: "South Pole reached 14-17 December."

This evidently means that he remained in the vicinity of the pole three days probably for the purpose of making accurate survey as to his position.

Rejoice Over Success.

Rejoicing over Captain Amundsen's success in reaching the South Pole is widespread. The feelings of the people was voiced in the Storching by

MEXICAN MINISTER DENIES STATEMENT

Manuel Calero Denies Reported Interview Saying That Americans Would be Held as Hostages.

Washington, March 8.—Emphatic denial has been made to Ambassador Wilson at Mexico City by Manuel Calero, the Mexican minister of foreign affairs, of the interview accredited to him declaring Americans and other foreigners would be held as hostages should any foreign force invade Mexico. Further dissatisfaction among former Madero followers was reported today.

Mitanda, a prominent general in the Madero revolution is said to have a large force under his command near the capital. Affairs in the state of Chihuahua appear to have been quieted since the revolutionists took hold and there are approximately two thousand rebels now reported in Chihuahua. Outbreaks still continue in the states of Jalisco, Zacatecas, Oaxaca, Vera Cruz, Puebla and Tlaxcala. Major General Leonard Wood, chief of the general staff, denied today that two more regiments had been ordered to the border.

Laredo, Tex., March 8.—About 200 passengers from Mexico more than half of them Europeans or Mexicans passed through here today north bound. The American consul general at Mexico City Arnold Franklin was among the passengers.

WABASH WRECK WAS CLOSELY FOLLOWED BY ONE IN GEORGIA

Four Negroes Killed in Wreck on Georgia Road Early Today—Those Injured at West Lebanon Will Recover.

Sacramento, Cal., March 8.—Four persons were killed and six seriously injured when passenger train No. 4, Atlanta at midnight, collided with a freight train leaving here at 2:15 this morning.

Those killed were negroes. They were pinned under the negro coach which was telescoped by the baggage car.

The two locomotives telescoped and were demolished.

The first passenger coach and the Pullman cars remained on the track and while some of the sleeping passengers were badly shaken, none of them were injured.

Dayville, Ill., March 8.—With the exception of the negro coach, unidentified, the scores of persons injured in the wreck of a train on the Wabash railway near West Lebanon, Ind., late yesterday will recover. It is stated today at the hospital in which they are being cared for.

The bodies of Mrs. B. E. Good of St. Louis and Mrs. Fred Grant of Adrian, Mich., crowded together when the day coach of the train rolled down a steep embankment are at West Lebanon.

Report Unfounded.

The report that there were two unidentified men in the wreckage proved unfounded.

Eight cars left the track when the west bound struck a broken rail.

Occupants of the mail car were not hurt. Mail cars rolled over twice after leaving the track.

Canadian Pacific Wreck.

Ottawa, Ont., March 8.—Five were killed and several injured in a wreck on the Canadian Pacific railway Proulx line west of Hull, Quebec, this forenoon.

SON STEALS MONEY SAVED TO PAY DEBT

Chicago Household Disrupted When Son Escapes With Father's Cash Saved to Settle Mortgage.

Chicago, March 8.—Money with which Theophile Murawski, after saving by his for over three years, was to pay off today a mortgage on his home became, instead, the means of disrupting the household which he had labored so assiduously to establish. While waiting for the time to come when the mortgage was to be lifted, Murawski was unaware that his son, John, seventeen years old, was watching him. A little later the boy left home and soon they discovered that the money was gone. An appeal to the police resulted in the further dismay of the parents by the knowledge that the savings which were to be the means of ridding the family of debt had, just before success had been attained, put one of the family in jail. The \$1,000 was recovered from the hiding place of the boy and the lad was lodged in jail. The mortgage was then lifted.

Lawrence, Mass., March 8.—The striking textile workers made nothing but a quiet demonstration prior to the time for the opening of the mills today. The street was crowded with men and women and the entrance to the mills was lined with pickets, but no trouble of a serious nature occurred. Five arrests of strikers were made for disorderly conduct. No perceptible increase in the number of employees resuming work was noted.

Battle to Decide Who Will Fight Jack Johnson.

Sam McVey and Jim Barry Will Have Bout in Sydney, Australia Tomorrow—Winner Meets Sam Langford.

Sydney, N. S. W., March 8.—The first of a series of elimination bouts between the heavyweights now in Australia to decide who shall have the privilege of meeting Jack Johnson for the world's championship, will be fought here tomorrow, when Sam McVey, the big Californian, and Jim Barry, the Chicago heavyweight, will meet in a 25-round go. The winner of the bout will meet Sam Langford here next month and the victor in that event will challenge Johnson.

ACTION OF SENATE BLOW TO ALL HOPE FOR ARBITRATION

Treaties as Mangled in Upper House Yesterday Will Never be Submitted—Action Was Expected in England.

Washington, March 8.—Summing up the action of the senate yesterday in stripping the proposed arbitration treaties with France and Great Britain of their vital features, government officials who followed the negotiations of the two pacts agreed today that participation by the United States in general arbitrations of international difficulties was a dead issue so far as this session of congress was concerned, and probably for many years to come.

There is little thought that President Taft will submit the treaties in their mangled form to either of the powers for possible approval.

Awaits Taft's Action.

The amended treaties sent to the White House today will await the return to Washington of President Taft and if routine is followed he will send them to the state department. Secretary Knox, who is due today at Annapolis, on the west coast of Honduras, will be advised by cable of what has happened and as a matter of form some consultation must be had between the President and the Secretary before the next step can be taken.

Agreement is Useless.

London, March 8.—Although the action of the United States senate in connection with arbitration was anticipated in official circles, keen disappointment is felt that it should be found necessary to amend the treaty, thus nullifying the work of months, for, as it stands, it is considered that an agreement is practically useless. There is no resentment, however, officials here having recognized that the British government did its best both to secure a good treaty and its endorsement by the United States senate.

Expected by Press.

The evening papers do not express any surprise at the action of the United States senate in emasculating the arbitration treaties so as to eliminate from their operation the Monroe Doctrine, immigration and state debts. The Pall Mall Gazette says that such treaties are only possible between nations which never are likely to fight and there is no need to sign and seal a declaration of love and affection for one's brother.

The Japanese say the newspapers must be laughing in their sleeves at seeing that the little piece of sugar by which the removal of the alliance with Great Britain was secured, has melted away.

The Westminster Gazette attributes the action of the senate to political expediency.

IS GRACE TRYING TO PROTECT HIS WIFE IN MYSTERIOUS SHOOTING?

Atlanta, Ga., March 8.—That his wife would shoot him intentionally while dreaming was the unique theory said to have been advanced today by Eugene H. Grace, critically wounded, while his wife is in jail in connection with the mysterious case. It came as a part of the maze of conflicting charges which have baffled local police officers. There was little change in the wounded man's condition this morning.

SEVERE COLD PREVENTS DAHL FROM MAKING SPEECHES.

Madison, Wis., March 8.—State Treasurer A. J. Dahl's cold which he contracted at Dahl River Falls, has become worse and will probably preclude his speech making tour in North Dakota in the interest of Senator La Follette for the presidential nomination.

FORMAL ORDER PLACING ROAD IN RECEIVERS HANDS MADE.

Kansas City, March 8.—A formal order placing the Kansas City, Mexico and Orient railway company in the hands of receivers was made by Judge Pollock in a federal court in Kansas City today.

URGES MERCHANTS TO LOOK INTO THE FUTURE OF CHINA.

Seattle, Wash., March 8.—American manufacturers must awake to the opportunities for trade expansion offered by China or European markets will get the business, according to Love L. Wood, special representative of the department of commerce and labor who has just returned from the Orient. "If the American manufacturer will study Oriental business methods he will outstrip his competitors," said Mr. Wood in an address at the chamber of commerce last night. "Other nations know what is going on in China and are making preparation. The United States, and particularly the Pacific coast must awaken to the situation."

SENATOR'S SILENCE REGARDS ROOSEVELT WAS BROKEN TODAY

La Follette in Issue of Magazine Lays Bare His Attitude in Regard to Roosevelt's Candidacy.

Madison, Wis., March 8.—Senator La Follette's silence on the presidential candidacy of Colonel Roosevelt was broken today by the declaration that "In the presence of great problems personal attack on candidates should have no place."

That La Follette, however, will subject Colonel Roosevelt's public record, and that of other candidates, to a close scrutiny is further indicated by the statement. In a measure the announcement lays down the issue upon which the senator intends to conduct his campaign. Under his own signature in an editorial entitled "Men and Issues," used as a frontispiece of La Follette's Magazine, the senator conveys his message to the country. The statement is called forth by the reported declaration of some newspapers that Colonel Roosevelt urged La Follette as "the ideal man to make the fight against President Taft."

Senator La Follette's statement follows:

"Men and Issues."

"February 26, a New York dispatch in the Washington Post said: 'Politicians who have been following the national situation say, that La Follette will shortly make an attack on Colonel Roosevelt, showing that representations were made to him by friends of the Colonel to the effect that he (La Follette) was the ideal man to make the fight against President Taft.'

"It is not a matter of great importance to the public why I became a candidate.

"The issue of this campaign is the right of the individual, the farmer, the worker, every man who pays the tribute to free himself by lawful means from the unjust exactions of the tariff, the railroads, the trusts, the money power controlling capital and credit and every form of oppression by special privilege.

Personal Attacks.

"In the presence of these great problems personal attacks upon candidates should have no place.

"But to determine the fitness of a candidate to perform a particular service, the public has a right to require the candidate to state each problem and offer his solution of that problem.

"The public have the further right to know what the candidate has actually done toward solving the problem, whether his course of action and the whole gives assurance of profound conviction and ability of judgment, whether he is backed by patient investigation and practical experience to deal with these problems constructively in the public interest."

Record is Important.

"Hence the exact record of the candidate on the tariff, the railroads, the trusts, the money power, subsidies and other forms of privilege is just as important. It may be more important, than his present declarations.

"It will, therefore, be necessary during this campaign to discuss the records of candidates as well as the remedies proposed by them to correct existing social and political evils.

"But such discussions cannot be distorted into an attack upon the candidate."

RADICAL DEPUTY IS MADE SPEAKER OF THE REISCHTAG.

Berlin, March 8.—Johannes Kaempfer, the radical deputy for central Berlin was today definitely elected speaker of the Reichstag.

CAPT. R. AMUNDSEN

LILUT SHIRAS

CAPT. R. SCOTT

HAS THE SOUTH POLE BEEN DISCOVERED?

London, England.—Reports which cannot be confirmed have been current here for several days to the effect that Capt. Roald Amundsen, the Norwegian explorer, has reached the South Pole and returned safely to civilization. Another report is that Captain Scott, who had a shorter return journey, has also returned from his Antarctic explorations. Nothing has been heard from the other three expeditions now exploring in the antarctic regions.

All together there are five expeditions which aim to attain the fame of first reaching the South Pole.

Capt. Roald Amundsen, of the British Royal Navy, is in charge of the Antarctic expedition which left England in July, 1910. He had with him sixty men and twenty sledges, thirty dogs and two motor sledges.

The most important of all the expeditions now in the South is that of the President Frederick Konow at the opening of the season.

President Konow and his crew from the members said "We cannot begin our day's work without expressing our thankful joy of the administration and pride with which we are filled by the news that Captain Roald Amundsen and his comrades have reached the South Pole and planted the Norwegian flag there."

Greetings to Amundsen.

"We are proud in the thought that these men are our countrymen and that they have once more succeeded in covering the name of Norway with glory."

The Storching then telegraphed to Captain Amundsen at Hobart its warmest greetings and thanks.

Denies Scott Dispatch.

Hobart, Tasmania, March 8.—Captain Roald Amundsen the Norwegian explorer denied having telegraphed anything regarding Capt. Robert Scott of the British expedition.

Pleased With Expedition.

Captain Amundsen up to the present time is the only one that has landed from the expedition. Nobody is allowed to go on board the vessel under any pretense whatever.

The Captain says he is pleased with the result of his expedition but otherwise maintains absolute silence on the subject.

Captain Amundsen intended to stay at Hobart but a few days. He will then go to Australia for a time where he will deliver a few lectures afterwards departing for Europe by the circuitous route of Buenos Ayres, then round Cape Horn up to Bohring Strait and through the northwest passage through the Arctic Ocean.

Amundsen is Confirmed.

The confirmation of Captain Amundsen's attainment of reaching the pole on December 14 came today from the explorer from Hobart and set at rest the conflicting rumors which were current yesterday on the subject.

A dispatch received in London yesterday stated that Scott reached the South Pole. It was afterwards stated

TAFT ON CAMPAIGN TOUR THROUGH OHIO; SPEAKS TO WORKMEN

Confers With His Leaders in Home State at Alliance-Salem Shops Shut Down on His Visit.

Alliance, Ohio, March 8.—President Taft started his three days' campaign through Ohio and Illinois early today with a political conference with L. C. Laylin and William H. Miller, two of the Taft leaders in this state. At Salem the plants of the town about down for fifteen minutes to enable the workmen to see the president, and a great crowd of men, women and children were awaiting the arrival of the train. The president had no authority to address the crowd. He waved his hand and bowed to a crowd of school girls carrying flags. The president made his first real platform speech at Alliance to a crowd estimated at 1,200. He preached prosperity and said in part: "Prosperity is the first thing that we all should seek because it means happiness to everybody. We may have a prosperity that is merely specious, we may have our mills running to the full capacity and yet there may be something of corruption in society and in the violation of law through trusts and combinations and discriminations of railway rates that make that prosperity one that really does not help us in the end. But, omitting that and assuming that everybody is obeying the law—and we are trying to make them obey the law—it is prosperity and business that we should look to, and the agitation that creates a lack of confidence among those who have capital invested, is not for the good of the people.

Therefore, what we want is, as far as we can, to have the quiet confidence that makes everybody look after his own business and put as much money as he can in it and then jobs will be many, wages will go up, we will all have money to buy shoes for our children and those of us that like comfort can enjoy it. What I would press upon myself is the necessity for inspiring confidence in our government.

"When everybody has confidence in everyone else, I do not know whether we can carry that to perfection, but it is also that we should not entertain hostility between classes, between persons similarly situated, but we should all have confidence in each other because we are in the same boat.

"If we have prosperity then it is the poorest man that gets the best out of it. When we don't have prosperity the rich man can be comfortable, but it is the poor man that suffers."

GERMAN COAL STRIKE IS ALMOST CERTAIN

Government Seeks to Secure Basis for Settlement of Difficulties With Little Result.

Berlin, Germany, March 8.—The strike has spread from the Silesian coal fields in eastern Prussia, where the socialists, the Christians and the Polish and trade union representatives of all the organized miners today presented the employers with a demand for a fifteen per cent increase in wages. The government is endeavoring to find a basis for settlement of the difficulty which has arisen in the Westphalian coal fields, but it is very doubtful whether their efforts will be successful. It is said that undoubtedly at least one hundred and fifty thousand, out of the three hundred thousand Westphalian miners, will declare a strike on Monday next. The mine owners are all assembling non-unionist workers to their places.

MILLION DOLLAR SHIPMENT FOR MORGAN ART COLLECTION.

Consignment of "Old Masters" With Value Estimated at Three Million Arrived Today.

New York, March 8.—Another consignment of the J. P. Morgan's art collection which is being sent from abroad was unloaded today from the White Star liner Oceanic which got here last night. The collection unloaded was appraised abroad at three million dollars. No estimate of the contents was given in the ship manifest.

Warranty Deed: B. M. Johnson and wife have sold property in the town of Clinton to C. F. Elgerton for the consideration of \$5,000, according to a warranty deed filed in the office of the register of deeds today.

Most Men Know Just as Much About Merchandise as Most Children Do About Astronomy

BY J. R. HAMILTON

This is no true that it needs no proof to bear it out. The average shoe has sixty-two different parts, any of which can be cheapened to make a price, and none of which can be judged except by the highest expert in shoemaking. The average suit of clothes has a hundred fifty-seven parts; the average pair of trousers has over sixty processes. The average fabric, even when it is absolutely all wool, through and through, can be made in many different grades. Your all silk socks can be made out of pure, earth-grown fibre without your knowing it; and one man is now trying to make them entirely out of cheap glue.

Now, the question is, if you are starting out to buy something today, where shall you go?

The answer is very simple: If you do not know the merchandise, you must know the merchant. The way to judge the goods is to judge the man. And the best way to judge the man is through the advertising.

The man who advertises is the man who signs his name to what he claims. If he signs his name to a bogus check, he goes into jail; if he signs his name to bogus advertising he goes into bankruptcy. Every advertiser knows this, and so he is careful of what he says. But the man who does not advertise does not have anything to lose. "They do not have to be so careful of what they say. It is merely a matter of personal integrity with them. There are many thousands of fine merchants and honest men who do not advertise." That is not the point. The question is how to find them and how to tell them from the rest. When they advertise, they must be honest if they hope to win.

And this is the value of the Advertising Pages in this paper today. These are the men who have signed their names. These are the men who guarantee what they sell.

It has been nearly three-quarters of a century ago since the first great merchant Alex. T. Stewart, trusted his commercial ship on the advertising sea. And similarly enough this great man was flying flags of distress when he advertised. He put out a little dodger through the streets of New York, telling the people frankly he had bought too much and would sell it cheap. And they came to his store and saved his commercial life.

Any man is careless who doesn't turn to the advertising news for whatever he is going to buy, because the best merchants are always the ones who advertise. They are the men who stand back of what they do and say. They are the guarantee of good faith in the business world.

Turn to their advertising pages now and see what they are offering you today.

YOU younger chaps want the snappiest things going in the way of hats; we've got 'em for you; stand ready to supply you. Want you to glance at our window tomorrow when you're passing by, Spring Hats \$2 and \$3.

D. J. LUBY

Friday at the Little Theatres

Lyric: "The Mender of Nets," Biograph drama; "Roentgen's X-Rays," Pathé. "Excursion in the Swiss Alps," Pathé.

Majestic: Special: "Gaiety's Weekly," released yesterday; this is the first time a weekly has been shown in Janesville before being shown in the larger cities of the state; like getting a newspaper right off the press. No advance in admission.

Royal: Vaudeville—Flo Belmont, comedienne, and her singing and dancing Eskimo dog; Shute trio, comedy acrobats. Pictures—"At Rolling Forks," Nestor; "Love me, love my dog," and "Compromised by a Key," English comedies.

"The Indian Massacre." Another "101" Bison in two reels. Sensational and Spectacular story of Frontier Life in the West.

A buffalo hunt is actually shown in this film, with real buffaloes. The plainsman shoots and kills one, and as he dismounts from his horse he is attacked by Indians. A thrilling scene follows as the desperate man fights for his life behind the carcass of the dead buffalo. This scene is only the beginning of sensational incidents leading up to the great Indian massacre, the marshalling of the surviving white settlers, and the wreaking of their vengeance upon the redskins.

HOW COMMISSION IS EXPECTED TO STAND

AFTER IT IS SELECTED BY THE VOTERS OF THE CITY OF JANESVILLE.

WHAT LAW PROVIDES

Places the Responsibility for 'Good Government and Law Enforcement in Hands of Three Men Only.

To the Editor: Under the commission form of government there can be no shifting of responsibility on the part of the commission, no excuse of other city officials negligent in the exercise of their duties that they have not the backing of the heads of the government. It is a plain case of holding the men elected down to the enforcement of the laws of the state and the city ordinances with no possible means of excuse on the plea that they are hindered in their work by internal bickerings and political maneuverings of fellow councilmen.

It means, voters of Janesville, that the men you select at the April election must be directly responsible to the city at large, not to individual councilmen, for the good government of the community. It means that the police department, the fire department, the board of education, the schools, the health officer, the city treasurer, the city assessor, the board of review, the city clerk, the city engineer, the superintendent of streets, the management of the parks and all the incidents of departments of the city government are directly responsible to some one head, who cannot shirk the responsibility.

It means the man you elect, Mayor, is a mayor in truth, not a mere figure head, a man without a vote except in the case of a tie. It means that he must be responsible for the welfare of the city during his term of office, that he has a voice in the city government; in fact the official representative of the city and your own personal representative. His term is for six years. He is given an opportunity to know his duties and become valuable to the city before he is subject to removal at an election, unless his acts are such that he is recalled by a popular vote.

It means that the two men who are selected as his associates, the commissioners, one for two years and one for four, are to work with him, to handle the city business in harmony. It means that the excuse of a failure to equitably handle the affairs of the community can not be laid upon the shoulders of a few men who have combined to further their own political ends, to gain preference for some friend or relative as a paid city employee, but must be met fairly and squarely by the commissioners themselves. It precludes star chamber sessions and manipulations of city affairs to suit the convenience of the governing body.

The law provides the Mayor and Commissioners must devote all their time to the city's business. It provides that the minor departments of the city government are divided as far as responsibility goes, between the three officials. One being responsible for the streets, police department, fire department and so forth, the others for the other positions to be filled. These men are paid a salary which is sufficient to secure their entire services all the time, not a few hours a week, and the minor city officials know exactly who they are responsible to and who they can look to for orders.

It means that if a city ordinance is violated, if the authorities are ordered to compel its observance, there can be no backing on the part of an aldermanic friend, who by combination and recrimination can gloss over the mistakes. It means the public is to be protected and favoritism can not be shown without the public knowing why it is shown and to whom. John Doe can not build a sidewalk four feet wide while his neighbor Richard Roe is compelled to construct one the regulation width without cause. That the grade for a certain walk, as set by the city engineer, can not be changed at the whim of some alderman who seeks to please a constituent while another walk is placed on grade even to the detriment of the property thus affected.

Richard Roe, owner of a drug shop cannot keep open after eleven, run wide open Sunday, allow women in his back rooms free from immunity because he has a drug with the powers to be, while John Doe, a law abiding drug shop owner, who closes promptly at eleven, keeps shut on Sunday and allows no women or gambling in his place of business, is subject to watching and injury, a loss of business because he is not a law violator. It means the police department can go ahead and enforce the laws and ordinances without fear of rebuke from the councilmen whose friends may be affected. It means the fire department can have needed equipment without bickerings of various committees composed of men who do not know the worth of a hose from a ten penny nail.

In other words the change to the commission form of government should give Janesville a government for the people, by the people. It should end all the draw backs that have hindered the growth of the city in the past. It should stop the jockeying that is prevalent, that pulls with the powers to be, was sufficient for a certain few to enjoy special privileges, which were denied the many. If a man pays taxes, pays what is demanded of him, he expects some sort of return. He expects if he is compelled to put in a standard walk his neighbors should be compelled to do likewise. If he pays for improvement of the streets he expects the city to keep it in repair. If he pays a license of five hundred dollars a year to conduct a business he expects a fair and square deal with all others in the same line, no favorites shown.

The Vagabond has no axe to grind in the coming election, no candidates to further, but believes that the city

should have the best government possible and the best men elected. That is, the men best qualified for the positions they seek. Men who are responsible, who are fearless and men upon whose judgment the citizens and taxpayers can rely. The law provides for a fair and equitable treatment of all interests and it is up to the commissioners to see that they get it. If they do not the public, the taxpayer and the citizens, will know why they do not and they have recourse under the law.

THE VAGABOND.

PEORIA POLICE WAIT FOR DOUGH BROTHERS

After Serving Thirty Days Here They Must Answer Charges There—Plead Guilty to Assault

Out of the frying pan and into the fire expresses the situation in which John and Everett Jones, alias John and Frank Dough, now find themselves. The two brothers, who were sentenced to thirty days in the county jail yesterday afternoon, following their pleading guilty to an assault upon Section Foreman Murphy at Evansville, are also wanted at Peoria to answer to charges of larceny. When they have served their sentence here they will be taken to Peoria and placed on trial.

The change in the plea of the Jones brothers came as the result of a modification of the charge against them, the words "with intent to do bodily harm" being left out. The attorneys and defendants came to an understanding early enough to avoid calling the witnesses who had been chosen. The three witnesses detained for the case, Joseph Harris, William Lang, and John Carlson, were all dismissed. Because of their inability to give a bond for their appearance they have been boarded and lodged at the jail for nearly two weeks.

E. Wombacher, a detective from the Peoria Police Department, arrived here this morning prepared to testify in the case against the Jones brothers, to prove that they have false names here and also to present their criminal record which is a long and bad one for young men of their age.

John Jones is wanted in Peoria to answer to the charge of stealing a dressed pig hung outside a meat market and Everett also has a large charge against him. The latter, who is a cripple, was arrested in May 1907 and served 60 days in the house of correction. In February 1910 he was arrested for larceny, held to the grand jury in the sum of \$500 and sent to jail. Last August he was arrested charged with assault with a deadly weapon, his offense being that of cutting a woman's throat. As she recovered the case was not pressed, and he received a sentence of only six months imprisonment. John Jones served a year's time for robbery.

The parents of the Jones brothers are both living in Peoria, their father being a laborer.

FRANK CONFESSION GOT CONROY'S GOAT

Caught With Back of Stolen Coal on Back Ed Conroy Boats of Success—Gets Five Days in Jail

Frank confession got Ed Conroy's goat. While carrying a sack of coal on his shoulders into yesterday afternoon Conroy met E. F. Romling, detective for the Chicago, Milwaukee & St. Paul Railway and on being questioned as to what he was doing with the coal he replied that he had succeeded in paying his bill for coal through the winter from the cars near the round-house. Caught with the goods literally on him, and with a confession too, Conroy meekly accompanied the detective to the municipal court where Judge Phipps sentenced him to five days in the county jail.

ANNUAL THANK OFFERING OF MISSIONARY SOCIETY

Ladies of Methodist Church Enjoyed An Excellent Program Yesterday Afternoon. Members of the Women's Foreign Missionary Society of the Carroll St. E. church held their annual thank offering meeting at the church yesterday afternoon. Mrs. Oscar Brownell led the service and an interesting and instructive program was given. Mrs. Brownell presented the subject, "Good News From Many Lands." Mrs. Delaney spoke of the work which has been done by Miss Stone in the foreign field. Mrs. Hunt told of the mission work in China, and a delightful reading was given by Mrs. J. E. Laine.

A generous thank offering was received from the members present which will go to swell the foreign missionary fund of the church. At 5:30 supper was served to the members, their husbands and other friends who were invited to join in the affair.

BRIEF LOCAL NEWS.

Tramps Again Moving: Tramps have begun their spring migrations after a period of comparative quiet. Twenty-five spent Wednesday night in the police station and fifteen slept there last night. Chief Appleby thinks that most of them have been driven out of Chicago. Since the snow has disappeared they have no use for their services.

Resume Concrete Work: The Fourth Avenue bridge crew prepared this afternoon to resume concrete work. The driving of piles in the tubes was finished yesterday and two are ready to be filled with concrete. There are two more tubes to sink.

K. Kilham of Boiling, Texas, is here for a few days.

Assistant Chief Recovering: Assistant Fire Chief Cornelius Murphy is recovering from severe burns received in the Little Rock. The fire which damaged his home on North Main street, Tuesday, has not yet been extinguished but as the pain has abated it will be possible to remove them in a day or two.

BRIEF PERSONAL MENTION

Mrs. Thomas Wallis is the guest of her sister, Mrs. Ballard, in Evansville. Miss Gene Sands has gone to Madison where she will visit over Sunday. Mrs. E. C. Erickson, who resides near the fair grounds, is confined to her home by illness.

M. P. Marsh, traveling passenger agent of the Wabash railway, had business here yesterday.

Mrs. Mary Roseling, who has been visiting friends here, has returned to her home in Peoria.

Mrs. E. H. Dudley, residing on South Main street, is entertaining her sister, Mrs. Walter Langus of Broadhead.

Miss Florence Mayhew of Beloit is visiting Mrs. J. R. Nichols.

Mrs. Stanley Tullman, who has been visiting her father at Racine for a week, is again at home.

Mrs. D. H. Jones, 419 Madison street, has been entertaining her brother, George Vivian, of Mineral Point.

Mrs. Howe of Aurora, Ill., is visiting her daughter, Mrs. Joseph Cook, who lives on Terrace street.

Mrs. C. Donley left for River Falls last night where she was called because of the dangerous illness of her aunt, Mrs. Thomas Martin.

Mrs. Van Hise, who has been living on Racine street, has moved upon her farm, three miles east of the city.

Mrs. Emma Amnell, who has been the guest of Mr. and Mrs. J. E. Carle during the winter, has returned to Steamboat Springs, Colorado.

Mr. and Mrs. Correll Davis have returned to their home in Edgerton, after spending a few days with their cousin Lucile Z. Hyam.

John Sykes and Robert Sykes of Milton Junction, were Janesville callers Thursday.

Hugh McCaffery, who has been in California for the last two months, is now on his way home.

Judge F. S. Reynolds of Milwaukee was in Janesville yesterday.

F. E. Pettibone of Milwaukee was a visitor in the city yesterday.

Dennis Garrigan, Henry Wallen, James Marino, and Dominic Alfonso, all of Beloit, were here as witnesses in the circuit court today.

Mr. and Mrs. H. W. Kramer, 620 Fifth avenue, are entertaining Mrs. L. H. Shock of East Troy, Wis., and Mrs. V. E. Hammond of Benton Harbor, Mich.

Mrs. J. J. Dulin has returned from a visit in Chicago.

Mrs. Ella Stout of Montana is visiting friends in the city.

W. C. Withall, who recently sold his home at 1331 Forest Park boulevard to Mr. Arnold, has moved his family into the Day house, 145 Forest Park boulevard.

Mr. and Mrs. George Barker, Miss Mary Barker, and Mr. and Mrs. Roy Wisner left for Florida today where they will remain indefinitely. They will go by way of New Orleans and expect to stay at Ocean Grove.

New Grocery

On March 16, I, the undersigned, will start a grocery at Ringold St. in the "Up-lands," and hope to see some of my old friends, and some of my new neighbors. To keep a good quality of goods, and to give all fair treatment, shall always be my aim.

Chris. Johnson

Window shades, 25c grade, special complete, at 17c each.

Combustibles, regular price 65c; special at 47c each.

These extremely low prices are for Saturday only.

JURY IS STILL OUT AT FOUR O'CLOCK

Verdict in Hilton Case is Yet Forthcoming After Four Hours Deliberation—Beloit Case On.

The jury in the case of L. J. Hilton of Beloit vs. Hayes-Brothers of this city which retired at eleven o'clock this morning was still out at four o'clock this afternoon. The extended deliberation on the case indicates a probable disagreement.

The jury in the case of Frank Gregory vs. the Beloit Iron Works was impaneled this afternoon and the first witness called at three o'clock. In their opening remarks to the jury counsel for the plaintiff and the defense explained that the plaintiff was injured while at his studies as empoly tender at the plant of the defendant and that he sustained a partial loss of sight due to the spattering of molten iron over the head. The plaintiff brings his case on the grounds of negligence on the part of the company in employing incompetent help in the handling of the acids used to catch iron shavings from the engine. Adams and Edgar of Beloit have the case for the plaintiff and Oswald and Scott of Milwaukee for the defendant company.

Articles Amended: The incorporation articles of the State Bank of Milton Junction have been amended so that the time at which the corporation will terminate will be December 29, 1911, instead of Jan. 1, 1912, as they formerly read.

A WOMAN DOCTOR.
Was Quick to Discover What Was Doing the Mischief.

A lady tells of a bad case of coffee poisoning (tea is equally harmful, because it contains caffeine—the same drug found in coffee) and tells it in a way so simple and straightforward that literary skill could not improve it. "I had neuralgic headaches for 12 years," she says, "and have suffered untold agony. When I first began to have them I weighed 140 pounds, but they brought me down to 110. "I went to many doctors and they gave me only temporary relief. So I suffered on, till one day, a woman doctor advised me to drink Postum. She said I looked like I was coffee poisoned.

"So I began to drink Postum, and gained 15 pounds in the first few weeks and am still gaining, but not as fast as at first. My headaches began to leave me after I had used Postum about two weeks—long enough, I expect, to get the coffee poison out of my system.

"Now that a few months have passed since I began to use Postum, I can gladly say that I never know what a neuralgic headache is like any more, and it was nothing but Postum that relieved me.

"Before I used Postum I never went out alone; I would get bewildered and would not know which way to turn. Now I go alone and my head is as clear as a bell. My brain and nerves are stronger than they have been for years." Name given by Postum Co., Battle Creek, Mich.

"Here is a reason," and it is explained in the little book, "The Road to Wellville," in plain.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Worthless Commodities. Three bees that give no honey—bong, boast and bluster.—New York Life.

NOTICE OF PRINTING BALLOTS.
Sealed proposals will be received by the undersigned City Clerk of the City of Janesville, Wis., until 2:00 P. M., March 8th, 1912, for furnishing all the material and printing as provided by law, 4500 primary election ballots to be delivered to the undersigned on or before 5:00 P. M., March 10th, 1912. Sample ballots can be seen at the office of the City Clerk. The right is reserved to reject any or all bids.

Dated March 6th, 1912.
R. M. CUMMINGS,
City Clerk.

STERLING SILVER
This department of our business is exceptionally strong. Our stock of spoons and forks is a wonder to those who know its size. The quality of our silver is absolutely the finest. We hope to see you.

OLIN & OLSON, Jewelers

Value of Friendship.
True friendship is one of the greatest blessings upon earth. It makes the cares and anxieties of life sit easily; provides us with a partner in our afflictions, and is a sure resort against every accident and difficulty that can happen to us.

A Lesson.
Possibly when one finds a brick with strange characters on it a wise plan is to let it alone, unless it may be of use to throw at a yellow dog.

To a Chemist.
"I want you to prepare for me a formula for making the best pumpkin pie that can be made," said the pie manufacturer to the chemist. "I've used turnips and ochre and potato flour and all the things my rivals use, and have beaten them a little bit at their own game, but now I want to put out a pumpkin pie that will simply outclass all other brands. I will pay you whatever fee is right for the work."—LIFE.

J. M. BOSTWICK & SONS.

Announcement

We wish to announce that we represent one of the most up-to-date tailoring establishments in the country.

THE IDEAL LADIES TAILORING CO., of Chicago, making strictly men tailored garments to individual measure. You can select your own materials from our Dress Goods stock and have the GARMENTS TAILORED TO ORDER. In addition to our immense stock to select from, we have a style book containing 330 samples for Ladies and Misses' Suits, Coats and Skirts. Come in and let us explain the Ideal Tailoring system, and inspect our PORTFOLIO OF FASHIONS.

CUBS DEFEAT NAPS AND TIE FOR LEAD

Naps Lose Two Out of Three Games to Cubs Last Night—Latter Tied With Sox for Honors.

Defeating the Naps in two out of three games in the bowling match at Hockett's alley last night, the Cubs tied with the Sox for the lead in the bowling league. The Cubs accomplished their victory last night with creditable ease and came near making the result three straight in their favor. They made a slump in the third game which gave their opponents the victory by eight points. Gridley did the best work for the evening with the high mark of 191. Scores for last evening and the standing of the teams are given below:

Naps.			
Gibson	146	182	172
Jeffers	150	116	152
Myhr	124	181	166
Merrick	144	129	150
Pfeiffer	166	135	140
Total	730	747	760—2363
Cubs.			
Kueck	145	156	147
Gridley	173	172	161
Carls	141	169	169
Thurston	172	128	163
Hockett	172	155	168
Total	803	771	778—2322

Monday, March 11, Giants vs. the Cubs. Standing of teams:

	Won	Lost	Pct.
Cubs	17	13	.567
Sox	17	13	.567
Pirates	16	14	.533
Naps	15	15	.500
Dodgers	14	14	.500
Giants	11	19	.367

Baseball Notes.
J. E. Lelet, owner of the New Castle team in the O and P league, has adopted the slogan "Lelet but not Lost."
Owner James E. Gaffney, of the Boston Braves, is at Hot Springs, Ark., taking a short rest before the baseball season.

Trainer "Doc" Green, former head of the ambulance corps with the Boston Red Sox, has signed as trainer with the Providence team.
If James John Callahan can find a first baseman among his bunch of youngsters, the White Sox will look pretty strong when the whistle blows.
Pittsburgh and New York have been submitted to the Virginia league, making eight clubs instead of six in the circuit for the coming season.
With eighteen Sunday and twelve Saturday games at home, the Newark team surely got its share of whipped cream pie from the schedule in the International league.

The new Oklahoma State league has been organized and teams will be placed in Oklahoma City, Guthrie, McAlester, Enid, Shawnee, El Reno, Ardmore and Chickasha.

A real big league baseball team always arrives at the training camp minus its baggage. The world's champions started it, and now all the other big leagues must tow their baggage.
Hal Chase, of the Yankees, has been managing a basketball team this winter. Chase and Smith, forwards, Joe Jannette, the boxer, center, and Ryan Doyle and Corrigan, guards, compose the quintet.

Manager Charlie Doan can't see where the Giants, Cubs or Pirates have anything on his Quakers in the coming race for the National pennant. "My old lid is in the ring," says Charlie.

Not only Pittsburgh fans, but baseball fans throughout the country will closely follow the work of Marty O'Toole next season. To show he is worth \$22,500 to the pirates, will take considerable showing.

It is said President McAlister is having trouble in signing up some of his Red Sox stars including Tim Lincecum and "Buck" O'Brien. With Tris out of the line-up he could write your own ticket on the league.

According to Charlie Dryden, the Chicago scribe, Ping Bodie, of the White Sox has perfected the latest marvel in string beans which does away with hooks and eyes and Ping says it is a big improvement over the old-fashioned string.

Nothing Left for Him.
"Wake up, Henry! There's a burglar in the room after your money." "Poor fellow! Why, I saw you searching my pockets just before you came to bed."

Too Many of Them.
Nobody can read the myrtle verses in the magazines without thinking that the price of poets' licenses ought to be increased. —Somerville Journal.

UNITED DOCTORS CAUSE SENSATION

MANY PEOPLE PUZZLED OVER WONDERFUL CURE OF KATHERINE HENSEL.

GALL-STONES DISSOLVED

NON-SURGICAL METHODS OF PAINLESS, BLOODLESS TREATMENT INDUCE A GREAT DISCOVERY.

Hardly a day passes but some unfortunate, despondent, and almost hopeless sufferer goes to the United Doctors, who have their Janesville Institute in the Hayco building, corner of Milwaukee and Main St., in search of a cure.

The modern scientific non-surgical methods of these specialists have proved superior to the old methods of treatment that it is a source of constant surprise to everyone. Katherine Hensel, of 203 So. Third St., St. Louis, Missouri, was treated by the United Doctors and has made the following statement for publication: "I have suffered for the last twelve years with gall stones and pain in my back, and doctored with a great many doctors but obtained no relief. I had to stay in bed days sometimes. I heard of the United Doctors, and after deliberating, decided to go to them, which I did. This was eight weeks ago and although I suffered twelve years, my pains have already left me and I feel strong and can now do my work again with only those two months' treatment."

Katherine Hensel was cured in the Illinois Institute of the United Doctors.

Anyone suffering from any ailment or disease can do no better than to immediately consult these specialists. They treat among other troubles, the diseases of the blood, nervous, kidneys, heart, liver, spine, skin, including rheumatism, epilepsy, paralysis, gall stones, colitis, tumors, stomach troubles, rectal troubles, catarrh, deafness, neuritis, and dropsy.

The Janesville Institute is in the Hayco building, corner of Milwaukee and Main Street.

Fortune's Opportunities.

There is a supreme moment in your life when, by a bold stroke, you may change it all. There is a day when you stand where the road forks; one way leads up to the heights, the other runs through dust and strife to a miserable grave.

This Should Be Considered.

Nobody has as yet succeeded in suggesting a way in which boys who become dissatisfied with their fathers may work the recall.

Appropriate.

An old dorky, plodding along a country road with a frazzled looking mule, was asked what the mule's name was. "I call him 'Trust,'" he replied, "because he kin take me 'abuse an' pay less attention to it dan any animal dey is."

NOMINATION PAPERS REJECTED BY CLERK

Papers Filed by J. B. Clark, Candidate For Beloit Municipal Judgeship, Found to Be Incorrect.

After holding a conference with District Attorney Stanley Dunwiddie as to the law governing the filing of non-partisan nomination papers, County Clerk H. W. Lee found that the papers presented by J. B. Clark of Beloit, candidate for the Beloit municipal judgeship at the coming spring election, were not in accordance with the law and were consequently rejected.

Mr. Clark's papers lacked the date of signature of each of the signers. According to the law each voter in addition to his signature shall add his residence, postoffice address, and the date of signing. In the city this will require the street and number, and in the township, the rural route and city. The clerk recommended that due to marks should not be used by the signers.

Three per cent of the voters for governor at the last election in the district in which the candidate seeking election is required by the law and the nomination papers shall be filed not more than forty days nor less than fifteen with the county clerk if, for a county office, before the date of election.

A Minute Lamp.

Physicians occasionally use, for the purpose of illuminating parts of the interior of the body, a delicate electric lamp, called the "pea lamp," because its little glass bulb resembles a small pea in size, being only one-quarter of an inch in diameter. It is, nevertheless, a complete incandescent lamp, having a carbon filament one-eighth of an inch long and about one two-thousandths of an inch in diameter.

Appropriate.

Low atmospheric pressure prevails in the East and South. The area of high atmospheric pressure in the Northwest is moving southward along the eastern slope of the Rockies, accompanied by colder weather. A drop of 12 degrees to 16 degrees is reported in Nebraska, Kansas and the Dakotas, with minima below zero as far south as Wyoming and northern Nebraska. Freezing temperatures extend into northern Texas. The barometer continues low in the Plateau region, and the weather is cloudy, with general precipitation west of the Rockies. In this vicinity the approach of the arena of high barometer will bring lower temperatures tonight and Saturday, while snow flurries will probably continue.

turns extend into northern Texas. The barometer continues low in the Plateau region, and the weather is cloudy, with general precipitation west of the Rockies. In this vicinity the approach of the arena of high barometer will bring lower temperatures tonight and Saturday, while snow flurries will probably continue.

This is a correct report of the circulation of The Janesville Daily and Semi-Weekly Gazette for February 1912, and represents the actual number of papers printed and circulated.

I, H. H. BLISS,

Mr.

Subscribed and sworn to before me this 1st day of March, 1912.

OLIVE M. HAYWARD,

(Seal) Notary Public.

My commission expires July 12, 1914.

ABSURD CLAIMS.

Campaign documents are expected for the most part, to be filled with self-praise of the candidates in whose interests they are issued. The truth, it is expected, will be colored to suit the convenience of the candidate, but it is not expected that willful misrepresentation will be permitted, even under the corrupt practice law, so much talked of and whose powers are threatening to those who dare to object to false statements by public utterances. One of the candidates, aspirant for a city office, has published at sporadic intervals, a campaign dodger which should be called "A Queer Advocate." In this "Queer Advocate" we are informed that the city is the gainer by the illustrations of the candidate. That he is in truth a political moron, a human benefactor, and that without his individual efforts, the city would have gone to rack and ruin long ago. We are told that it cost sixteen cents to save dollars in the tax reassessment, but the writer fails to state the facts of the case. He does not say that this increased taxation, this bringing more money into the city treasury really falls as a burden upon the small property-holder. That, in one specific case known to the writer, the personal property assessed valuation for a man in moderate circumstances is more than the sum total of a family whose pride is their valuable pictures, their costly rugs and bric-a-brac.

The writer does not go into detail of the poor widow in the Second ward who had saved up a few dollars for a rainy day, who had looked to the future and had never been accused of being a tax-dodger, who is compelled now to pay interest on her savings. He failed to note the fact that hundreds of pieces of property have been assessed at a value that is more than their selling price could be expected. He lays great stress upon the fact that he has endeavored for five years to bring about an equitable adjustment of the taxes and failed. Why he failed, when as a member of the board of review he acted in an official on that board; why he signed the reports as equitable and just, he does not say.

The advocate of a square deal for the people, a deal which will further his own political ends, goes on to explain about his great victory in the Water case. He talks what is saved but forgets to add that by the decision of the railway commission the city of Janesville is forced to pay approximately eleven thousand dollars more a year for its water than before. This is provided for by the increased tax levy at the last budget made by the council. This means that each individual water consumer pays his water rent and also pays his proportion of the tax on the eleven thousand dollars. It means that non-water consumers, persons not enjoying the privilege of water must pay this increase. Is this fair, is this just? Is this the work of a friend of the people? Look at the result of that decision in cold figures, not dream ideas colored for personal reasons. The figures given below are taken from the books of the Water company. They will bear inspection. First will be given the old rates and the privileges enjoyed by the city, then the new rates and the extra cost:

Hydrants and flushing.....\$7,250 00

13 public fountains, 5 paid for.....150 00

Nine school houses.....No cost

Fifteen churches.....No cost

City Hall.....No cost

Three engine houses.....No cost

City Library.....No cost

Total cost.....\$7,250 00

Under the commission ruling we may expect such a bill as the following, whether the city owns the water works or not. It is the ruling of the commission and they would really control the rates, not the city:

Hydrants and flushing.....\$19,800 00

13 public fountains.....\$40 00

9 school houses estimated.....800 00

15 churches estimated.....200 00

City Hall estimated.....400 00

3 engine houses estimated.....1,200 00

City Library estimated.....60 00

Estimated cost.....\$19,000 00

Less old rate.....7,250 00

Increase.....\$11,750 00

Then take for consideration the average water consumer on the basis that he does not use more than the meter allowance per quarter. Under the new rate the water consumer will pay \$1.50 for the meter rent, 64 cents for water consumed, 25 cents for meter inspection, a total of \$2.39. Under the old system he paid \$2.50, a flat rate. Take the new rate from the old and you find that the average consumer who only uses the same amount of water pays 11 cents. Will this offset the proportion of the \$11,000 increase in cost to the city? Figure it out for yourself and see how much this wonderful decision has gained for you.

It has cost the city money to make these experiments and what has come of it all? The water rates are not really lowered except to the big consumer. The action against the New Gas Light company is hanging fire, and probably will be another farce. The reduction of rates via the Rockford interurban was gained by Otto Schleker, who acted in behalf of the railroad men themselves. On his own word the candidate in question never filed a complaint against the Janesville Electric company, yet claims a great victory. His attacks on the local street car line have hindered improvements planned and have gained nothing. His reassessment of the city has perhaps discovered a few tax-dodgers, which he could have done himself, had he done his sworn duty as a member of the board of review, and saved the city the two thousand odd dollars of cost for such a reassessment. The city has, during his term of office, paid out hundreds of dollars for legal services which the council dared not trust in his hands. He has failed at conviction in numerous cases brought in behalf of law and order by the police, and taking it all in all it is a costly experiment the city has gone through.

Under the corrupt practice laws of 1911, chapter 65, section 34 to 16, the law provides that all circulars must contain the name and address of author and candidate. The "Queer Deal Advocate" contains the name of the candidate in whose behalf it is published, but fails to contain any mention of the author of the various articles. The law is a two-edged weapon and works both ways. It cuts and it bites and is for the poor as well as the rich. It can be used to bully and threaten, to cajole and urge, but in the end it works out. The wheels of justice grind slowly but they grind uncommonly fine.

Sudden championship for the Janesville municipality does not go in accord with the fact that a certain city official offered to fight when asked to draw up an ordinance which would permit the city to appropriate money for public concerts by the local band.

Taft sentiment grows stronger every day. His hold on the people who believe in a square deal is knit by bonds that can not be broken by the word of a demagogue.

Threats of personal violence are a poor argument in any campaign and it is to be hoped that the Kentucky method will not be convoked even by rash aspirants for office.

La Follette has torn off the mask and means to say a few words about the Roosevelt proposition which should be watched with interest by all his friends.

Lenroot is the first of the deserters to the cause of the Wisconsin reform. We may expect to see him voting with the democrats before long.

Voters at the coming primary should think for themselves before they trust the business of the city to any man incapable of handling his own affairs successfully.

Someone who is brave enough ought to take the pepper can away from those Mexicans at once.

It may be a week or two more at least before you have to oil up that faithful old lawn-mower.

Too Soon.

The cave-man was gifted with prophetic vision, and when he perceived how hideously hairy he was, a discontent took possession of him. "If automobiles were only invented," he muttered bitterly, "I should be getting the style in winter coats." That sense of having been born too soon, when has it not served to rob men of their peace?—Puck.

Naturally Alarmed.

"Zo bootful helless scared me to death when she asked if I had anything to hide from zo world." "Nonsense was alarmed?" "Terribly! I thought she had seen zo soiled shirt beneath zo big Windsor tie."—Boston Record.

Heart to Heart Talks.

By EDWIN A. NYE.

LAUGH EARLY AND OFTEN.

Mirth is God's medicine. Everybody ought to bathe in it.—O. W. Holmes.

Mirth a medicine?

Certainly, and a good one—better than most of the prescriptions of medicine.

It is one of nature's real remedies, a balm for life's bruises, a salve for sorrows, a balm for groaners, a panacea for worry.

Dr. Sanderson says:

"Mirth, cheerfulness, is a better stimulant for the tissues of the body than drugs, which react. Laughter is an actual life-giving influence." Another physician says, "Fun is a food and as necessary to wholesomeness as bread."

Therefore—laugh.

We take life too seriously. We do not laugh enough. Or we indulge in a stingy sort of mirth. Some of us laugh so seldom we lose the habit of it.

A laugh is a massage.

Figures of speech aside, a good laugh is a real massage treatment. When you laugh heartily your diaphragm gets busy. In moving rapidly up and down it massages the liver, stirring that organ up to its duty. It affects other organs also.

"Laugh and grow fat" is the shrewd observation of many generations.

The old kings were wise. They hired jesters to make them laugh. And Lycurgus, able lawmaker, set up the goal of laughter in the public-dining rooms of Sparta.

Laughter is a good buffer.

It is like the shock absorbers folks put in the springs of their automobiles. It helps to carry one easily over the knobs and "thank-you-ma-ams" of life's rugged road. And it reduces friction everywhere.

Laughter is normal.

Good health and physical and mental harmony require that the funmaking propensities should be released. Laughter does that. If these natural propensities are kept back one has an attack of "the blues," if totally repressed—insanity.

Laugh and succeed.

If you bottle up your visible spirits you paralyze your personality. A cheerful spirit and a hearty laugh smooth out many wrinkles of business.

Men and women go every year to premature graves because they have forgotten how to laugh.

Laugh—and stay above ground.

ON THE PURSUIT OF THE MOMENT.

WE'VE STOPPED BUYING MEAT.

His folks ain't got to buy no meat. We're going to kill the meat.

Our dad says that the packer's ring we're surely going to bust.

We haven't got a bit of beef or pork since Monday morn.

But still we're feelin' fine and we will laugh the trust to scorn.

Ma's dog dug Sarah Rorer's work that tells you how to cook.

And she ain't got to miss a single thing that's in the book, Providin' that the recipe don't mention any meat.

She says she'll fix up vegetables so they will be a treat.

We had potatoes Monday, cooked in nineteen different styles.

And buckwheat cakes and graham gems in most attractive plow.

Of course did bought a turkey but that ain't exactly meat.

But he said we must have it for to make the men complete.

He's bargained for some chickens from a man who runs a farm.

Of course we've all stopped eatin' meat but chickens won't do no harm.

Pa's boycotted the butchers and says they won't get his dough.

But he eats strikin steaks down town at noon for lunch we know.

Since we have cut our meat at home, we're having eggs each day.

They cost a whole lot more than meat but dad says that's the way to knock the food trust in the head and save our hard earned wealth.

We've got to have some food like that if we'd preserve our health.

We've had canned mushrooms once or twice. They used to cost too much.

And lobster in Newburg and canned pineapple and such.

To knock the food trust in the head we're having oysters every day.

They used to be a treat.

We're savin' up dead loads of coin since we stopped buyin' meat.

ACCORDING TO UNCLE ARNER.

There's never much harm in a mandolin player—when he ain't playin' it.

It looks as though the outcome of the election in this country is going to be pretty close. A straw vote was taken at Tibbitt's general store last night, and the result was as follows:

Roosevelt, 1; Taft, 1; LaFollette, 1; Campbell, 1; Harmon, 1; Harrison, 1; Wilson, 1; Underwood, 1; Bryan, 1; Clark, 1.

It doesn't look as though there is going to be much farm work done this year if politics hold out.

When a feller learns how to run his automobile it is time to buy a new machine.

It seems strange, but almost everybody lives next door to some mean critter who won't shovel the snow off his walk.

If all the proposed railroads were built there wouldn't be room for a single potato patch from Maine to California.

If you hold up the napkin it is a sign you expect to be invited to eat another meal in the house and if you don't fold it up it is a sign you are done, so what is a feller to do? Hank Thumma solves the problem by sticking the napkin in his pocket and taking it home with him.

Who kin blame the women for getting into politics and business when most of the beauty dope and advice to mothers for the Sunday papers is written by men?

I never see a feller who traveled through the west but what came back with the firm impression that there is going to be a great revolution in politics.

AND THEN HE FOUND IT WAS SO COLD THAT KISS JUST UP AND FROZE.

And then he found it was so cold that kiss just up and froze.

Hank couldn't get away from her; she couldn't shake off Hank.

And all that they could do was sit and yank and yank.

So finally it got real hot, 'bout 9 o'clock, it might be.

And her and Hank both know that they were in an awful plight.

With his free hand Hank turned the lamp and headed back for town.

He drove right to the warren's house, the person helped them down.

You see Hank couldn't use his mouth, so he talked on his hands.

And told the warren: "Go ahead and tie the wedding bands."

The knot was tied. The person who had quite a tender heart.

Let Hank and her set by the stove (all they had thawed apart).

That happened quite a spell ago, when him and her was well.

That frozen kiss was Hank's good luck, he many times has said.

It was a happy marriage and Hank surely struck it right.

But Hank and her ain't never been slosh ridin' since that night.

THINGS TO THINK ABOUT.

Enough steel is wasted in talking machine needles every year to build a battleship.

Ninety per cent of the colliery colliers manufactured in this country at the present time are being worn by book agents.

There are now \$75,982 Janesville performers singing, "Oh, You Beautiful Doll."

A Pennsylvania convict has become a poet. This is a reversal of the usual order.

Scientists say the world will come to an end in 3221 which will give Capt. Hobson plenty of time to pull off his war with Japan.

FROM THE HICKORYVILLE CLAIM.

There was a bad fire the other night in Anne Purdy's corner, but Wide Awake House Company, it was explained that the company's uniform shirts had been sent to the laundry without the proper regalia.

Anne tried to form a bucket brigade, but his wife had sold soap in all the pails around the house and wouldn't allow them to be disturbed. It was a terrible conflagration while it lasted and one life was put to high rest. When the fire was at its height, it was discovered that Uncle Ezra Peter's was inside and had been there three days hidin' from his wife. He didn't dare come out then for his wife was in the crowd watchin' the fire, but was dragged unscathed and unconscious, having lost his self-respect and most of his whiskers. Uncle Ezra is now on the road to recovery, but will not be the same man again until his whiskers grow out.

Hank Purdy says the cost of livin' surely must be gettin' higher in Washington as Congress is receiving so many bills lately.

Had Renfrew was appointed a committee by his lodge to buy flowers for a singer who appeared in our midst recently and the homeward foler sent the bill direct to Hod's house and Hod is don't more useless explainin' than as though he had discovered the North Pole.

I see they have finally broke all the flyin' machine records. If they would only break all the talkin' machine records there would be some class to it.

H. Huggins has had an anker tut-toed on his arm, which shows that he has reformed and is going to lead a straight life and never be a failure from justice.

Steady and consistent advertising is what makes business grow.

True Economy:

Sooner or later one learns the lesson of true economy, that it pays best to patronize the store that insists upon its standard being maintained in the smallest as well as the most important articles it carries. To this fact is largely due the tremendous growth of this business. Our buying system has sifted this problem and found the road to success at the bottom. You buy on this system from us to your own profit and have recognized the fact that you are practicing economy in so doing. Besides the high standard of merchandise at the lowest prices, you will find in this store the unwavering desire to treat you the best we know how. A cheerful spirit of willingness to show you our goods will meet you at every at every turn.

**LONG FELT NEED OF
REST ROOM SUPPLIED**

Quarters Furnished and Equipped by J. M. Eastwick & Sons Much Appreciated by Downtown Shoppers.

There has been considerable interest at different times in the establishment of a public rest room in the city, and it has been provided for J. M. Eastwick & Sons to furnish a convenience of this sort in their store, a fact which is bound to be appreciated by the public. A completely equipped rest room has been established in a balcony at the rear of and overlooking the main floor, in which are writing desks and material, tables, easy chairs, couches, toilets, etc., all arranged attractively and with the suggestion of quiet. Here ladies may spend a restful half hour or more, and especially attractive will it be to those who of necessity take their lunches down town; they are invited to make use of the rest room and doubtless many will take advantage of the generosity of the Eastwick store.

LINK AND PIN
Chicago and North-Western,
LONG WINTER HARD
ON RAILROAD MEN

List of Injuries and Deaths Increased
By Long, Drawn Out Cold
Weather.

Reports of the accidents and injuries during the month of February show a decided increase over those of last year in the train service, probably due to the long continued cold weather. On the Wisconsin division the number of injuries in the train service reached 55, which is much larger than a greater part of the other divisions and some larger than the rest. On this division in 1912 there were three killed and eighty-nine injured, while during this month in 1911 there were six killed, but only sixty-eight injured.

Among the employees over the entire road there were eight killed and five hundred and three injured in comparison with last year's record of four killed and four hundred and twenty-five injured. At this time last year the weather had been fairly warm and agreeable for some time, while this winter the cold has hung on much longer than usual and increased the difficulties of railroading and the liability of accident. One hundred and seventy-two men were injured during February, though none were killed in train service. Two were killed and sixty-nine injured in switching service. The station service claimed one death and forty-three injuries. One trackman was killed and thirty-five injured while only twenty-one bridge men were injured during the last month. Thirty-two car repair inspectors were hurt and in the shops and roundhouses one man was killed and one hundred and seven received injuries. Among the other employees three men were killed and twenty-six injured. Altogether this makes a total of twelve men killed and nearly a hundred more injured, which can be laid to the effects of the cold. The large number of injuries received by the men in shops and roundhouses was due to the great quantities of steam which prevented them from being able to see what they were doing with sufficient care and other things which were caused by the long continued cold.

The larger part of the injuries on the Wisconsin division were received by the men in train service, thirty-seven being recorded. Nine were injured switching, one was killed and seven injured in station service, another one was killed and five injured in track work, one bridge man was hurt, three car repair inspectors were injured, with eight men in the shops and roundhouses, while one was killed and five others injured who were employed in other jobs. This makes a total of three killed and seventy-five injured.

In an article in the last Bulletin the author says that the undisputed cause of a larger part of the accidents is merely disobedience with a capital letter. Running over of engine tanks and other things which were done during the past month by some engineers or firemen in direct disobedience of rules, perhaps caused some of these many injuries to the trainmen. This article also brings out the fact that the more accidents there are, the less money there is left for the benefit of its employees for pensions, etc.

NEW ASSIGNMENTS POSTED
AND VACANCIES OPENED

Word from E. W. Peterson, posted this morning, announced the assignments of firemen as follows:—H. Frothingham and Freeman William Burke in the day switch engine at Wyoville; A. Robinson and Freeman J. L. Baker in the night switch engine at Wyoville; and P. J. Weirich to the night switch engine at Friend.

The following vacancies for engineers were also posted which will be open for application at E. W. Peterson's office until noon of March 14.

One, 2nd No. 6 Milwaukee-Waukegan, (New Job).

Two, Special delivery jobs, Butler, various.

One, special delivery, Milwaukee, Butler (New Job).

One, 146-940 vacated by P. Faber.

One, 285-284 vacated by Reinhardt.

One, 512-516 vacated by Harrison.

One, 6:00 a. m. emergency Chicago avenue.

One, suburban run No. 3.

The B. and N. department is making a number of repairs on the east shuttle today.

Chief Dispatcher Jack Leo is, out today.

Engine No. 347, which has been in switching service here, has been taken to the Chicago shops for an overhaul.

Machinist Haddock who has been trying to get used to the Wisconsin weather for two or three months after living in Texas, is laying off on account of illness. He is reported to be throwing out in preparation for spring.

A letter from G. B. Vilas speaks of the complaint which has been made against the fences which are now in use. He points out the fact that the fences were tested and found to be the best obtainable with the proper use. They should be dropped from the train in such a manner that they will not be broken by falling over.

AIN: BRAKE INSTRUCTION CAN TO BE HERE APRIL 3

All Trainmen and Engineers Are Required to Attend at Least One of the Lectures.

Initiation posted today announced the coming of the Air Brake Instruction car next April from the third to the sixth. It will come here from Harvard and will go to Madison, Verona, Elroy, Winona, Friendship, Butler and Milwaukee after it leaves here.

All trainmen and engineers will be required to attend one of the lectures given in this car while it is here and an explanation of their absence will be asked from those who fail to attend.

DISABLED ENGINE
BLOCKED TRAFFIC

East Bound Passenger From Orfordville Yesterday Afternoon Came to Jansville With Added Load.

(SPECIAL TO THE GAZETTE.)

Orfordville, March 8.—An engine with a freight train from the east, disabled by the blowing out of a cylinder head as it was backing part of the train onto the siding west of the depot, delayed the east-bound four o'clock passenger train nearly an hour Thursday afternoon. Reported efforts resulted in backing the train part way onto the siding, but used up the supply of water.

Finally, with the assistance of the passenger train, the freight was shoved past the switch and the passenger went on to Jansville, showing before it the part of the freight train remaining on the main track. Later other freight trains took care of the stalled engine and train.

Other News.

At a special business meeting of the Epworth League, Friday evening, Mrs. W. F. Clavey was elected as 3rd vice president and Mrs. F. A. Cole as 4th vice president to fill vacancies.

At the M. E. church Sunday morning the Rev. Salmbury will preach the fourth and last sermon on the subject, "Some Conversations of Jesus Christ." You are cordially invited to be present. Sunday evening the Rev. Salmbury will deliver a lecture for the benefit of the Woman's Foreign Missionary society of the M. E. church on "Hal Shengam, Demon Destroyer." Pastor Hal is one of the most romantic characters engaged in missionary work. The lecture will undoubtedly be very interesting and instructive. There is no charge for admission, but a collection will be taken for foreign missionary work.

Epworth League at 6:45 p. m. Sunday. Leader, Miss Grace Ashby. Topic: The Universal Refuge in Every Extremity, a Loving God. Hos. 1:1-3. A cordial invitation to you.

Miss P. Delmer, principal; Miss Almeda Tullis, intermediate; and Miss Ida Hamilton, primary teacher, went to Madison, Thursday evening, to attend the meeting of the Southern Wisconsin Teachers' association today and tomorrow (Friday and Saturday).

The Woman's Foreign Missionary society which met at the parsonage Wednesday, was favored by an address by Dkt. Supt. Rev. John Roy, holds of Jansville. There was a bright spiritual atmosphere in the meeting and the members received new hope and encouragement for the work.

MRS. ANN FATHERS
DIED THIS MORNING

Passed Away at Age of Eighty-four Years—Resident of Jansville Since 1880—Native of England.

Mrs. Ann Hart Fathers, mother of City Treasurer James Fathers, whose end has been hourly expected for the last two or three days, died at ten o'clock this morning at her home, 221 North Bluff street at the age of eighty-four years and two days. Her last illness dates from December 22, 1911, and she has been confined to her bed ever since.

Surviving Mrs. Fathers are two sons and one daughter, William James A. and Miss Ellen Fathers, all of this city, and one sister, Mrs. Ellen Sawell, of London, England. One son, Samuel died October 3, 1907.

The late Mrs. Fathers was a woman who stood in high esteem with all who knew her and her life was one of great activity until the feebleness of age arrested her efforts. Her services as a nurse and as a caretaker in homes visited by death and illness were in great demand and who never failed to respond to a summons whenever she was able to do so. Those who were privileged with her acquaintance share in the loss of those who survive her.

Funeral announcements will be made later.

J. N. Davis.

J. N. Davis, father of Mrs. Charles Kruse, 212 North Jackson street, died at ten o'clock this morning at his home in Plattville. He was eighty-three years old, and death was caused by old age disorders. Mr. Davis worked for the Chicago, Milwaukee & St. Paul railway for twenty-five years. He leaves seven daughters and two sons to mourn his loss. Mrs. Kruse received word yesterday that he was dying, and was able to reach his bedside before he passed away. Funeral services will probably be held Sunday.

Frank Wood.

Funeral services for Frank Wood were held at 2:30 o'clock this afternoon at the home, 626 West Bluff street. The Rev. Father Henry Wilman, read the Episcopal burial service. The body was laid to rest in Oak Hill cemetery.

Miss Carrie Lee.

Miss Carrie Lee passed away shortly before three o'clock this afternoon at her home, 309 South Academy street, after an illness of over a year. She is survived by three brothers, John M. Lee, with whom she made her home, Richard Lee and Howard Lee, all of this city. Funeral arrangements will be announced later.

Revival Meetings: The revival meetings held at the Salvation Army citadel on North Main street, are attracting good audiences every evening. At the service tonight the choir of the M. E. church will sing.

New Lighting Standard: A three-lamp ornamental electric lighting standard will be placed in front of the Majestic theatre on West Milwaukee street. The work of installation has been begun.

TOM GUNN CHINESE AVIATOR

CHINESE AVIATOR ESCAPES DEATH.

Oakland.—Powerless in the whirl of a brisk bay breeze, with a falling motor at his back, Tom Gunn, a young Chinese aviator, plummeted from a height of 100 feet in his newly built plane near the Oakland aviation field and crashed into a building at the Parillon Point works. When taken from the wreck he was unconscious and bleeding from half a dozen wounds, but his injuries will not prove fatal. He sustained a dislocated jaw, a deep cut over the right eye, an ugly wound in the left cheek

and lacerations on both legs, besides numerous bruises and abrasions on other parts of the body.

Fifteen thousand persons at the aviation meet saw the young aviator swoop over the Oakland park and swoop downward as he lost control of his machine. The crash that followed was hidden by intercepting trees and buildings from all except a few onlookers at the point works and Union Oil company at the foot of Powell street, on the very edge of the bay.

TODAY'S EVANSVILLE NEWS

PYTHIANS INITIATE
TEN NEW CANDIDATES

Evansville Lodge Held Good Meeting Last Evening.—Pythian Sisters Invited to Madison.

(SPECIAL TO THE GAZETTE.)

Evansville, March 8.—Evansville Lodge No. 56, Knights of Pythias, conferred the Oriental degree upon a class of ten initiates at Castle Hall Thursday evening. Grand Vice-Grand Fred A. Baker presided. After conferring the degree a smoker was held, refreshments served and a social hour interspersed with songs was greatly enjoyed. Dr. C. M. Smith acted as toastmaster.

Friendship Temple No. 9, Pythian Sisters, of this city, have been invited to a six o'clock dinner and quarter party by the Madison Temple Wednesday March 13. They will go to Madison on the noon train and return the same evening.

Evansville Locals.

There was no school here today. All teachers had the privilege of the day to attend the meeting of the Southern Wisconsin Teachers' Association held at Madison.

Mrs. Grace Lyons, who has been helping to care for her mother Mrs. William Carpenter, for the three weeks, has returned to her home in Marquette, Mich.

Mr. and Mrs. John Toller are getting ready to move into their new home on Church street.

The many friends of W. H. Hatfield will be glad to learn that he is quite comfortable and gradually improving in health.

Mrs. Mary E. Wilder of Downer

college, Milwaukee, will give a dramatic reading of modern drama March 22nd at the Congregational church.

Mrs. Elmer Rosa who has been spending a week at the home of Mr. and Mrs. H. H. Johnson, has returned home.

The regular meeting of the Methodist Woman's Foreign Missionary Society was held Thursday at the home of Mrs. Horton on First street.

C. E. Lee has been confined to the house all winter but is feeling more comfortable this week than for some time past.

Mrs. Cora Carpenter is in Chicago on business.

Mr. and Mrs. Chas. Danks of Stoughton attended the funeral of the latter's grandmother, Mrs. Almira Hendricks in Evansville last Tuesday.

Want new bring results

CASCARETS FOR A
SICK, SOUR STOMACH

Gently but thoroughly cleanse and regulate your Stomach, Liver and Bowels while you sleep.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness, and sick headache, means indigestion; a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they cure indigestion, because they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended forever. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

THE GOLDEN EAGLE

We have now gathered here, Gentlemen, the largest and best stock of

New Spring Clothing

Ever Assembled in Any Store in Southern Wisconsin.

The warmer weather is on the way and will set hundreds of men and young men to thinking of new clothes; and as usual the Golden Eagle is proving a mecca for all who seek the BEST in ready-to-wear apparel moderately priced. BUY GOLDEN EAGLE SHOES

FOR BOYS.—New spring styles in our Boys' Shoes claim attention of parents, they wear better and longer than any other Boys' Shoes; come in all leathers and styles. \$1.50 to \$3.00

MRS. BROUGHTON IS NINETY-TWO TODAY

Janesville Woman Quietly Celebrates
Birthday at Home of Daughter,
Mrs. Nick Reed.

Enjoying the best of health and with all her faculties as keen as they were in her younger days, Mrs. Amanda Broughton quietly celebrated her ninety-second birthday today at the home of her daughter, Mrs. Nick Reed, 18 South Franklin street.

It had been planned to have a large gathering of relatives and friends present to celebrate the passing of this eventful day for Mrs. Broughton, but owing to the illness of a son, Dr. Broughton, in Rockford, it was decided to pass the day with only the immediate family. Many beautiful presents were received by Mrs. Broughton from her many friends in this city and scores of post cards brought their messages of congratulation and best wishes. It was a happy day for Mrs. Broughton, who received each of her friends' affection with untold pleasure.

Her memory remains keen and it is over her ambition to keep free from illness. Her capacity for work, chiefly sewing, embroidery and fancy work of every description, is as large as during her earlier years. She is always busy and attributes not a little of her present contentment to the fact that she finds pleasure in her work.

EDGERTON PEOPLE WERE ENTERTAINED

Mr. and Mrs. Frank Kealy Gave Party
at Their Home North of City
Last Night—Other News.

(SPECIAL TO THE GAZETTE.)
Edgerton, March 8.—Mr. and Mrs. Frank Kealy, for some time residing on the Henry Yocco farm, four miles northwest of this city, having recently purchased the Charles Seefeld farm in Fulton township, of which they soon will take possession, last night entertained a good size company of the ladies of the Royal Neighbors and their husbands of which Mrs. Kealy is a member, together with friends and neighbors at their farm home. The event opened at 7:30 with an elaborate dinner and the remainder of the evening was spent in cards and other social amusements. Before departing the Royal Neighbors presented their sister member with an elegant silver souvenir spoon in remembrance of the pleasant occasion. Those present were Mr. and Mrs. Fred Sherman, Mr. and Mrs. Will Condon, George Condon, Clara Condon, Mrs. G. McCarthy, Dr. and Mrs. J. L. Holton, Mr. and Mrs. W. Dickson, Mr. and Mrs. A. C. Anderson, Mr. Dell Clark, Mr. Richard Curran, Mr. and Mrs. John Madden, Mr. Will McIntosh, Mrs. John Dickerson, Mr. and Mrs. Ed Hubbell, Mrs. Will Tyler, Nell Mason, Mr. and Mrs. M. J. Schmidt.

Edgerton News Notes.

C. H. Tellefsen spent the day yesterday in Stoutsville.

Nels Evenson, Emil Lund and Carl Johnson went to Milwaukee yesterday on a pleasure trip of a few days.

Mrs. A. W. Bentley has returned from an extensive trip which was spent with relatives in Minnesota and Wisconsin.

Mrs. C. H. McIntyre of Oak Park, Ill., is here on a short visit with her parents, Editor and Mrs. F. W. Coon.

Mr. and Mrs. P. C. Brown left yesterday for Rochester, Minn., where Mrs. Brown will consult the Drs. Mayo regarding her health.

Edwin Lund of Madison, a tailor is now associated with Julius Amundson in the millinery business.

Joseph J. Leary went to Whitewater today on business.

Three Universities in Debate.

Bloomington, Ind., March 8.—The three-cornered intercollegiate debate between the state universities of Ohio, Indiana and Illinois takes place

tonight, each institution being represented by one team at home and one abroad. The advisability of states adopting the initiative and referendum is the subject selected for the debate.

MISS PAUL WINNER
IN MEDAL CONTEST

Annual Event Held at Milton Junction
High School Last Evening—
Other News of Interest.

(SPECIAL TO THE GAZETTE.)

Milton Junction, March 8.—The Junior contest was given in the assembly room last evening. A good sized crowd listened to the following program:

Solo Mabel McGowan
Humming of Vainant ... Doris McCulloch
Anna Green Gabel ... Esther Kanner
Musie Boys' Glee Club
Freckles' Samaritan ... Gladys Paul
Arabella in Aready ... Laura Root
A Plan for Cuba ... Carroll Coon
Toussaint L'Overture ... Frances Mullen
Solo Miss Murdock
Murder of Lovejoy ... Rollin Strick
Eloquence of O'Connell ... John Conkey
Musie Gladys Paul

Miss Gladys Paul received the medal, Frances Mullen was the second prize, Miss Laura Root received second place among the girls and Carroll Coon second among the boys.

Business Men Entertained.

The business men were entertained at the Tucker Cafe, yesterday afternoon, at a banquet between two and four. They all appreciated the good dinner which Mr. Tucker showed them.

Rev. and Mrs. Bond Surprised.

The S. D. B. people gave their pastor and wife a surprise last evening, when they walked in on them, bringing lunch with them. The evening was spent in various amusements. At a late hour the guests departed leaving behind them a token to show they had been there.

Local News.

Miss Nellie Butts, of Janesville, is visiting Miss Inez Brightman.

Mrs. R. E. Hull and daughter, Mrs. Fred Garthwaite were Janesville callers Thursday.

The Ladies' Aid Society of the M. E. church met with Mrs. Lizzie Kelly this afternoon.

Miss Hazel Murdock is entertaining her mother, Mrs. R. C. Murdock, of Beloit.

Mrs. Carr and Chambers were Janesville callers yesterday.

Miss Martha Seeger returned yesterday from Milwaukee, where she has been buying goods for her spring opening.

Misses Maudie Paul and Nellie Gardner were in Janesville last night.

The local school was closed today in order that the teachers might attend the convention at Madison.

ADVENTIST MEETINGS
CONTINUE IN INTEREST.

Services Conducted at Church on
South Jackson Street Proving
Successful.

Revival services which are being held at the Adventist church on South Jackson street are progressing with success. Services have been held in the church in the interest of the Advent faith for the past year. Some of the subjects which will be treated Sunday evening, "The Three Sanctuaries of the Gospel," Monday evening, "The Ministry of Christ, Our Great High Priest," Tuesday evening, "The Cleansing of the Sanctuary," treating of the great prophetic period of Dan 8:14 and the judgment. The themes presented are made intensely practical and give encouragement to those seeking for the better Christian life.

Courted Responsibility.

Labor Exchange Clerk—"What are you?" "Society Applicant—"I used to be a steam roller flogger, but am open to take up any post that promises an equal amount of responsibility and danger."

Uncomplimentary.

Deacon Berry—"You remember the words of St. Paul in his defense before Agrippa?" "Miss Stenstrom—"No, deacon, I do not. St. Paul, you know, was before my time." Deacon Berry—"You surprise me."

Prepared for Trouble.

"Doesn't it ever make you unhappy to see the way the papers refer to your husband as a graffer?" "It used to, but I don't let it bother me any more. He says he has things fixed so that he could stand any kind of an investigation."—Chicago Record-Herald.

Steady and consistent advertising is what makes business grow.

Greenland System of Voting.

A leaden ball takes the place of the voting paper in Greece. For every candidate there is a ballot box, divided into a "Yes" and "No" portion; it is so constructed that the voter can drop one of the balls secretly into whichever of the two receptacles he desires.

Electricity On the Farm.

The days of the old fashioned hired man are numbered. Electricity is driving him out. Ask any farmer if he has ever had trouble with his hired man, and he will gaze at you, speechless with indignation. The shortcomings of the hired man have been a fruitful topic of humor in the American comic periodicals ever since he has existed as an institution.

With the perfecting of farming machinery, mechanical energy is displacing manual labor and the plough horse by leaps and bounds. Electricity is the best hired man. It demands no "days off," and never abuses the stock. It does not eat you out of house and home, and its fixed charges are far less than those of the average hired man. A complete electrical outfit will do the work of many hired men and horses, and never gets tired. It is as easy to care for as a typewriter, requiring only a periodic oiling. Present day motors are of such solid and simple construction that the operator need have no special knowledge in order to operate them. It is simply necessary to close the service switch to set them in motion, and to open it to stop the motors.

A recent hand show, held in New York City, the Crocker-Wheeler Company undertook to show, with the cooperation of manufacturers of farming machinery, just what can be done with electricity on a farm. The general equipment consisted of a Crocker-Wheeler generator driven by an oil engine, and this is the list of devices which the outfit of motors would drive:

1. The farm's water supply was furnished by an automatic pump, to the confusion of the old oaken bucket.

2. The irrigating department was equipped with a centrifugal pump, which could also be used at any required pressure in case of fire.

3. A refrigerating machine, milk cooler, cream separator, bottle washer, even an ice cream freezer for Sunday dinner, were installed with separate motors in the dairies. Electric motors throw no dust, and are far more sanitary than belts and shafting for dairy work.

4. An electric truck provided for the transportation.

5. A large threshing machine, with motor drive, illustrated what could be accomplished by the application of motors to outdoor machinery.

6. Corn shellers and feed choppers equipped with individual motors showed how the smaller machines may be operated.

7. Types of laundry machinery driven by individual motors, eliminated the horrors of scrubbing.

8. An electrically driven milking machine abolished the memory of aching fingers.

9. A silo with an accompanying motor driven silo filler was exhibited.

10. A sheep shearer, electricity driven through a flexible shaft, was another variation of electricity's accomplishments. This device could also be used for grooming cattle or horses.

11. Ventilating fans, household equipment, cooking devices and the supplanting of the old oil-dripping lantern by electric lights or an electric torch completed this unique exhibit.

In practically every place where muscular energy has hitherto been expended on the farm, all-prevailing electricity is taking its place. A small motor driven hoist will put a load of hay into the barn more quickly and cheaply than the stoutest and most conscientious hired man working with a horse and continue to do it for twenty years. In fact the use of electricity is such a constant source of economy that it is a complete plant worth paying for itself, and after that all the money which would have been spent for manual labor is "velvet"—just plain gain.

WINNING THE CHAMPIONSHIP

Palm Beach, Florida.—By playing 18 holes on the local golf links in 62 minutes, William J. Travis on February 15th, won the Florida Golf Championship from J. R. Hyde and broke all previous records. This is the first picture of Travis in action making one of his record breaking drives.

Debtor's Paradise.

"What a dreadful thing an article might last 140 days must be. Wouldn't it drive you mad?" "But think of the relief it must be to be able to tell a creditor, 'Come tomorrow, knowing that 'tomorrow' will be 140 days off."

To Take Ink Stains From Ivory.

A piece of priceless old ivory became badly stained with ink. I tried vainly to remove this until with four and trembling I used my cream silver polish. This proved precisely the right thing and improved the luster of the ivory.—Good Housekeeping.

Frauds.

Some frauds succeed from the apparent candor, the open confidence, and the full blaze of ingenuousness that is thrown around them. The slightest mystery would excite suspicion and ruin all. Such stratagems may be compared to the stars; they are discoverable by darkness and hidden only by light.—Colton.

Fair But Stormy.

A gentleman boarded the Karori car at Kelburne avenue. Recognizing a friend on one of the seats, he nodded pleasantly, and then said: "Well, what do you think of the weather?" "Oh, horrible!" was the reply. "And how is your wife today?" "She's just about the same, thank you!"—New Zealand Free Lance.

Settlement of Britain.

It is quite generally held by students of the ethnic migrations across Europe that the Irish are of a race older than the British, but that they settled in Britain first and then moved on to Ireland under the impulse of later swarms behind them. The settlement of Scotland is similarly explained as a crowding of the same race to the northward, upon which was later overlaid a backward migration from the north of Ireland to the nearest point of Scotland.

Unique System of Voting.

In Belgium and in Holland a black square with a white spot in its center is printed opposite the name of each candidate. The elector votes by blackening out as many of the white spots on his paper as he is entitled to; he then folds it and drops it into the box.

THE DESPAIR OF A MURDERER'S WIFE.

Chicago.—Throughout the long, anxious hours of waiting for the verdict of the jury in the Kaufmann murder case, Mrs. Rabeneau and her child, Mrs. Stacy and her child, paced the corridors of the courthouse apparently in a state of utter collapse, though never on the gallows or suffered life imprisonment for a crime committed against humanity. His life through the constant attendance of

these two women and their children at the trial and the defense of the murderer was based largely on this sympathy plan. The above photograph was taken while the jury was on determining whether this little baby should be the offspring of a father who died on the gallows or suffered life imprisonment for a crime committed against humanity. His life through the constant attendance of

SHEEP IN ADVANCE; HOGS SHADE HIGHER

Hogs Show Tendency to Recover From Yesterday's Depression While Sheep Go Up Ten Cents.

(BY ASSOCIATED PRESS.)
Chicago, March 8.—A ten cent advance for the sheep market was the feature of trade at the stock yards this morning. Receipts of 19,000 were below expectations and the demand was strong at the opening of the market. The trading continued brisk until the last offering was taken, all at the advance in price.
The hog market was more promising this morning, showing a tendency to recover from the ten-cent drop which was experienced yesterday. Receipts were fair at 21,000. Cattle were steady and receipts light. Prices are given below:

Cattle.
Cattle receipts 500.
Market—Steady.
Beef—5.00@5.25.
Texas steer—4.70@4.80.
Western steer—5.10@5.20.
Stockers and feeders—4.10@4.20.
Cows and heifers—3.25@3.50.
Calves—4.00@4.25.

Hogs.
Hog receipts—21,000.
Market—Steady.
Light—6.20@6.30.
Mixed—6.25@6.35.
Heavy—6.30@6.40.
Hog—6.35@6.45.
Pigs—6.40@6.50.
Bulk of sales—6.50@6.55.

Sheep.
Sheep receipts—10,000.
Market—Strong 10c and higher.
Native—3.75@3.85.
Western—3.50@3.65.
Yearlings—4.00@4.20.
Lamb, native—5.25@5.35.
Lamb, western—5.25@5.35.

Butter.
Butter—Steady.
Creamery—27@30.
Dairy—21@23.

Eggs.
Eggs—Firm.
Receipts—6,000 cases.
Cases at mark, cases included 19¢.
First, ordinary—19.
First, prime—19¢@20.
Cheese.

Potatoes.
Potatoes—Strong.
Receipts—67 cars.
Wisconsin potatoes—115¢@118.
Michigan potatoes—110¢@113.
Minnesota potatoes—110¢@113.

Poultry.
Poultry—Steady.
Turkeys—live 14; dressed 18½.
Chickens—live 14½; dressed 15.
Springers—live 14½; dressed 16.
Veal.

Wheat.
May—Opening 101½; high 101½; low 101½; closing 101½.
July—Opening 98½; high 98½; low 97½; closing 98.

Corn.
May—Opening 71½; high 71½; low 70½; closing 71½.
July—Opening 71½; high 71½; low 70½; closing 71½.

Oats.
May—Opening 62½; high 62½; low 62½; closing 62½.
July—Opening 48½; high 49; low 48½; closing 48½.

Rye.
May—80½.
Barley.
Barley—80½@81.

JANESVILLE WHOLESALE MARKETS.
Janesville, Wis., March 7, 1912.
Feed.
Oil meal—\$2.10@2.25 per 100 lbs.
Oats, May, Straw.
Straw—\$7.50@8.00.
Haul and Loose Hay—\$18@20.
Hay—80 lbs., 90c.
Barley—50 lbs., 50c@51.00.
Wheat—\$1.40@1.45.
Middlings—\$1.45@1.55.
Oats—40c@50c.
Corn—\$1.50@1.7.

Poultry Markets.
Turkeys—15c lb.
Hens—10c lb.
Springers—10c lb.
Old Roosters—5c lb.
Ducks—11c lb.

Hogs.
Different grades—\$5.50@6.00.
Steers and Cows.
Veal—\$8.50@9.00.
Beef—\$3.50@4.00.
Sheep.
Mutton—\$1.00@1.50.
Lamb, light—\$1.00.
Butter and Eggs.
Creamery—31c.
Dairy—20c@25c.
Eggs—20c.

Vegetables.
Potatoes—\$1.00.
Carrots—50c bu.
Parsnips—75c bu.
Beets—50c bu.
Rutabagas—50c bu.
Purple Top Turnips—50c bu.

(BY ASSOCIATED PRESS.)
Elgin, March 4.—The quotation committee of the Elgin butter board this afternoon declared butter 30 cents, firm, output for the week 700,000.

**LETTUCE IS HIGHER;
ORANGES GOING DOWN**
Florida Navel Oranges About Gone; Head Lettuce Rises Slightly and "Cukes" Drop Two Cents.
Head lettuce is today selling slightly higher, having gone up from a shilling to 15c a head. It is getting scarcer and harder to get in the cold weather continues and the price necessarily goes up too. Cucumbers

have dropped from 22c to 20c today. Almost all of the Florida navel oranges have disappeared and the oranges which come from the southern peninsula are mostly the other variety selling at prices ranging from 15c to 45c a dozen. Today's prices show no other changes than the ones mentioned and read as follows:

Vegetables.
Carrots—2½c lb.
Fresh Carrots—5c bunch.
Parsnips—3c lb.
Potatoes—\$1.00@1.20 bu.
Green Peppers—5c each.
Squash—15c.
Yellow Onions—5c@6c lb.
Cauliflower—8c@20c.
Red Onions—6c lb.
Cabbage—5c lb; 10c head.
Lettuce—5c bunch.
Head Lettuce—15c head.
Celery—7c@10c.
Vegetable Oysters—8c bunch.
Beets—1½c@2c lb, 20c pk, bunch 10c.
Shallots—10c bunch.
Parsley—5c bunch.
Rutabagas—2½c lb.
Brussels—8c bunch.
Yellow String Beans—20c lb.
Chives—5c bunch.
Onions—8c each.
Kohi Rabi—10c.
Brussels Sprouts—22c box.
Cucumbers—20c.
Pio Plant—15c.
Fresh Spinach—16c.

Fresh Fruit.
Apples—Kings, 5c lb; Greenings, 5c lb, 5c lb.
Apples—Box, \$1.75@2.75.
Fresh Strawberries—55c box.
Cranberries—10c@12c.
Bananas—Dole, 10c@20c.
Imported Apples—20c lb.
Lemons—30c doz.
Grape Fruit—5c, 7c, 4 for 25c; 10c, 3 for 25c; 15c, 2 for 25c; 15c each.
Tangerines—20c@30c doz.
Pineapples—15c each.
Florida Oranges—15c@45c dozen.
Butter and Eggs.
Creamery—35c.
Dairy—30c@35c.
Eggs—25c doz.
Butterline—18c@21c.
Flour, Nuts and Popcorn.
Flour, per sack—\$1.35@1.75.
Rye Flour—40c sack.
Rye Flour—30c@70c per sack.
Popcorn—Shelled, 7c lb; 4 for 25c.
Popcorn on Cob—5c lb, 6 lbs, 25c.
Cornmeal—10 lb sack, 25c to 30c.
Whole Wheat Flour—14 lb sack, 35c; 12 lb sack, 55c; 6 lb sack whole wheat 35c.
Chestnuts—15c@20c lb.
Hickory Nuts—5c@7c lb; 50c pk.
Black Walnuts—20c lb.
Black Walnuts—30c@35c pk, \$1.00 bushel.
Chestnuts—15c@20c lb.
Brazil—20c.
Almonds—20c lb.
Pistachios—20c.
Pecans—15c@18c.
Popcorn—5c.
Honey—Comb 22c.
Honey—Strained, quarts 50c; pints 30c; 6 oz, 12c.

DEPARTMENT OF AGRICULTURE MAKES REPORT ON CROPS.
(BY ASSOCIATED PRESS.)
Washington, March 8.—The department of agriculture's March crop report issued today estimates wheat—on farms 122,025,000 bushels or 10.6 per cent of the 1911 crop; about 50.1 per cent of crops will be shipped from counties where grown. Corn—on farms 884,000,000 bushels or 35.3 per cent of the 1911 crop; about 20.5 per cent of the 1911 crop is merchantable. Oats—on farms 280,000,000 bushels or 31.4 per cent of 1911 crops; about 28.8 per cent will be shipped from counties. Hay—on farms 21,700,000 or 15.5 per cent of 1911 crops about 57.2 per cent will be shipped from counties.

ZINC ORE GOES UP IN PRICE TO NEARLY THE LIMIT.
(BY ASSOCIATED PRESS.)
Joplin, Mo., March 8.—Because of bad weather and curtailed production the price of zinc ore today went up to \$54.50 cents a ton for 60 per cent stuff is within \$2.50 of the highest price ever paid in this district. Many mines have been compelled to shut down because of heavy snows.

STANDARD OIL COMPANY INCREASES PETROLEUM PRICE
(BY ASSOCIATED PRESS.)
New York, March 8.—The Standard Oil company of New York today advanced refined petroleum in cases twenty points to 10.10 cents per gallon and in barrels ten points to 8.20 cents. No change was made in the bulk price for 60.

THE STANDARD OIL STOCK TAKES BIG JUMP TODAY.
(BY ASSOCIATED PRESS.)
New York, March 8.—The old stock of the Standard Oil Company of New Jersey today sailed up 10 points to \$90 a share the highest it has ever sold. Trading in this stock has been active for several days during the panic year of 1907 the stock sold down to \$29.

NO DESKS FOR SENATORS AT A SPECIAL SESSION
Present Want of Room at State Capitol Due to Construction Work Would Handicap Lawmakers.
(SPECIAL TO THE GAZETTE.)
Madison, Wis., March 8.—Superintendent of Public Property William L. Egan plans to establish the senate in the assembly parlors in the event of a special session of the legislature. No other room in the state house outside of the assembly chamber is large enough to accommodate the upper house, and there is not room enough in the parlor even for desks. The senators may conclude to get along without them. All the office rooms in the capitol are occupied, and the congestion due to the construction of the new building could not be much worse. The committee will be given offices in various wings of the building, including the public property, insurance department, and oil inspectors. Only a few employees will be recalled if the session be held. It is probable papers will be disposed of with. The sergeant-at-arms and assistant will be on duty. There will be no need for a document room or mailing force. The chief clerks of the two houses will receive \$50 each for opening the session.

ASSOCIATE JUSTICE HOLMES SEVENTY-ONE

Oldest Member On United States Supreme Bench—Ages Of Other Judges Of Court.

Washington, D. C., March 8.—Associate Justice Oliver Wendell Holmes, now the oldest member of the Supreme Court of the United States, celebrated his seventy-first birthday today. When President Taft took office three years ago Justice Holmes, far from being the oldest member of the highest court was regarded as among the younger members of that body, being many years the junior of Justice Harlan, Brewer, and Peckham, since removed by death. The ages of the present members are: Justice Holmes, seventy-one; Justice McKenna, sixty-nine; Justice Landon, sixty-eight; Justice Brandeis, sixty-seven; Chief Justice White, sixty-seven; Justice Lamar, fifty-five; Justice Van Devanter, fifty-three, and Justice Hughes, fifty. Mr. Holmes, the new member, was fifty-four years old last month.

H. C. BUELL PRINCIPAL SPEAKER AT MEETING.

(BY ASSOCIATED PRESS.)
Madison, Wis., March 8.—L. D. Harvey, principal of the Stout Institute and H. C. Buell, superintendent of the Janesville schools and Mrs. Josephine Quirk Baker, editor of "Correct English and How to Use It" were the principal speakers at the morning session of the Southern Wisconsin Teachers' association convention which is in session here.

RICH MAN GOES TO JAIL RATHER THAN PAY A FINE.

(BY ASSOCIATED PRESS.)
Milwaukee, Wis., March 8.—Rather than pay a fine of \$10 and costs amounting to \$15.21, Gustav A. Kanner, a large owner of tenement property, whose wealth is rated at over \$100,000, prepared to go to the county jail for 30 days Friday. Kanner was arrested and a warrant issued by the health department charging him with failure to keep a tenement at 729 Kinross avenue in a sanitary condition.

Religious Educators To Meet.
St. Louis, Mo., March 8.—The local committee has everything in readiness for the entertainment of the

thirtieth annual convention of the Religious Education Association, which is to meet in this city next week for a session of four days. The attendance at the meeting will include several hundred of the foremost clergymen and educators of the country. The Rev. Dr. H. Kirkland, chancellor of Vanderbilt University, will preside.

NEW BRUNSWICK SEEKS TO SECURE IMMIGRANTS.

Plans to Turn Aside Portion of Tide Into Province Discussed at Congress in Fredericton.
Fredericton, N. B., March 8.—Plans whereby New Brunswick may secure her share of the great tide of foreign immigration flowing into Canada were extensively discussed at a big immigration congress held in this city today. The meeting was attended by several hundred representatives of boards of trade and other commercial agricultural and industrial bodies and by many, editors and other delegates from the chief cities and towns throughout New Brunswick. Resolutions were adopted for presentation to the legislature now in session asking that body to take steps for a hearty cooperation with the Dominion government in plans to attract immigrants and capital needed for the further development of the natural resources of the province.

CONFERENCE OF RURAL PROGRESS.
Boston, Mass., March 8.—Plans for the encouragement of agriculture in New England were discussed by the New England conference on rural progress, which held its annual session at the State House in this city today. Many practical farmers and representatives of railroads, commercial organizations, state boards of agriculture and state granges throughout New England participated in the conference.

INCOME TAX SUPERVISOR IS DELUGED WITH LETTERS.
Corps of Stenographers Required to Answer Inquiries Which Come From Solicitous Corporations.
(SPECIAL TO THE GAZETTE.)
Madison, Wis., March 8.—Supervisor of Income Tax K. H. Kennan is receiving few letters daily from corporations desiring advice on how to file their returns. A corps of stenographers is taking care of the abnormal mail. Many of the letters indicate a purpose to comply strictly with the law to guard against mistakes or insufficiency of data given. On and after March 10, the income tax assessors will send out blanks for returns to individual taxpayers in their respective districts. It is expected the assessors will be deluged with inquiries for more information, many of which will be referred to Mr. Kennan to add to his present troubles.

SOUTHERN MOB DISPERSED WITHOUT LYNCHING SUSPECT
(BY ASSOCIATED PRESS.)
Jacksonville, Fla., March 8.—Quiet prevailed after three o'clock this morning when the last of the crowd which threatened to lynch the negro Eugene Baxter, held in the county jail on a charge of murdering Simon Silverstein, finally dispersed. No further demonstration is expected at the courts have promised a speedy trial.

Honor for Sir William Collins.

London, March 8.—A marble bust modeled by the sculptor Lessore was presented today to Sir William Collins, the eminent physician and surgeon, in recognition of his services for fifteen years as a member of the London county council and five years

St. Louis Collier Show.
St. Louis, Mo., March 8.—With an entry list including many of the noted prize-winning colliers of America the annual bench show of the St. Louis Colliers Club opened today. The exhibition will last two days and promises to be one of the best of its kind ever held in the middle west.

The Limit.
A bridal pair recently had a street fight because the wife insisted that the husband carry her pet "poodle." Notwithstanding the unusual excellence of this excuse for a squabble, street fighting is bad form.

REHBERG'S

Spring Style Displays That "Make Good"

YOU'RE one of those men who want a Spring Suit or Overcoat that "makes good" in wear, in the fit, in the style, in the price. We're the store that sells that kind of goods. That's why you'll be interested in our new Spring style displays.

QUALITY first—is that your idea in buying clothes? It's ours; and it's the only idea that's right. All the rest comes with that; and sooner or later that idea will bring you here. We'll show you what real quality clothes are; and a real service in selling and a real guaranty of satisfaction.

MEN'S Spring Suits have the call. In suits for men new sack suits are given preference; many new ideas in style and weave. Young men's Suits, very lively styles, but not too much so. Smart clothes for boys. Suits, Top Coats. Men's, Young Men's and Youth's \$10 to \$30 suits

"SMILE" HATS

ROELOF'S "Smile" Hats are not excelled in quality and style by any hat made. The models for this season are worthy of your money and confidence. Come in and let us fit you with a style that will fit your features as well as your head. "Smile" Hats

SPRING SHOES DISPLAY

YOU'LL like our spring shoes best when you get them on your feet. First step you take will be in perfect comfort and the last step is a long way off. All the season's correct shades and leathers and the snappiest styles you've ever viewed.

\$3, \$3.50, \$4, \$4.50 For Men and Young Men's Shoes; Ladies' and Misses' Shoes.

HEART AND HOME TALKS BY BARBARA BOYD

That Rushed Feeling.

No matter what our station in life may be, most of us are suffering from that rushed feeling.

From the time we prod ourselves out of bed in the morning until we lay our weary bodies down at night, we are going at a tension. We feel that we are not getting all the things done that we want to do, that those neglected things are assembling into some dark host that eternally prods and pushes and makes us hurry ever and over faster. Our brain is in a whirl, our nerves are taut, and usually, the climax is a darkened room, a white-capped nurse, and the feeling that nothing matters any more, and that it isn't hard to die anyway.

And this feeling pervades all ranks. The business woman is pushed all day, and when she goes home at night there is such an appalling list of things to do and of things that have been left undone, that she is desperate. The housekeeper tries frantically to clean and cook and sew and make calls and go to church and have a party now and then, and all the time she is distraught at the things that are left undone. The society woman rushes breathlessly from luncheon to tea, and tea to dinner, and dinner to ball. No matter where you go today, you seldom find the woman of calm, of serenity, of leisure.

It is not wholesome, this rushed feeling. It means a breakdown sooner or later. Nerves that are always at a tension will in time snap, a brain that is always in a whirl will wear out sooner than it should. A right amount of activity and wholesome interests are promoters of health, but an over supply becomes a burden too heavy to carry, and the strength fails.

The woman who has this rushed feeling should see what she can cut out. She should study and see what, in all this scramble, is worth while, and what is not. Is she frantically pawing around in a squirrel cage that simply uses up her strength, but never gets her anywhere, or will she arrive at some desired goal, or accomplish something worth doing?

With many of us, it must be admitted, that all this hurry and strain accomplish little. At the end of a year, we are not much farther ahead in the things that count than we were the year before. We may have left several hundred visiting cards around various houses. We may have shown off several dozen hats and gowns. We may have proven to our satisfaction that our silver and cut glass are finer and more lavishly in quantity than our neighbors. But really as sane people, are these things worth while? And if we have done these things at the expense of our health, or at a sacrifice of that leisure which would have given us time to read and reflect and grow mentally and spiritually, has it been worth the doing?

So, if our health is suffering, our finances suffering, or our real spiritual self suffering, from this rushed feeling, let us cut out the useless things, the rubbish that is precluding us to this frantic pace, and settle down to a calmer, easier gait. Our health will improve, our spirits brighten, and life will take on a real joy, of whose delight we never get the faintest taste now, as we hurry frantically on our round of uselessness.

Barbara Boyd.

The Evening Chit-Chat

BY RUTH CAMERON

No life can be pure in its purpose, and strong in its strife, and all life is not purer and stronger thereby.—Owen Meredith.

In a sermon which I heard the other day, I was much impressed by one thought. The minister said—I quote from memory, so you may ascribe any roughness of phrasing to me, rather than to him—"We are all anxious to be something or do something for ourselves. Perhaps it is not included in the scheme of things that we should, but it may be that, instead, the Lord means to let us say or do some little thing that shall help or inspire someone else to great things."

Almost every one of us in his early youth confidently expects to astonish the world in some way. He may have some talent which he secretly rates as great genius, and may expect to accomplish wonders with it. Or he may not have any such definite notion of the exact direction his wonderful career is to take. But of two things almost every youth is certain—that he is a little different from other people, and that he is going to be great in some way. As he grows older and begins to deal with the iron of reality, instead of with the phantom stuff of which dreams are made, he begins to have vague, unpleasant suspicions that there is a chance that he may be mistaken in this high rating of himself. These doubts grow more and more common until some day, some day when the vision splendid has begun to fade into the light of common day, he must definitely face the realization that he is just of common clay after all, that he will do well if he holds his own and keeps his family in comfort and that there is no likelihood that he will ever astonish the world.

After the splendid hopes and beliefs of youth, this is indeed a grey outlook, but it need not be such a depressing one if we will but let in the sunshine of the minister's thought. We cannot be great ourselves, but who knows but we may do or say something—all unwittingly perhaps—which shall inspire or bring out, or help on greatness in others?

Charles Spurgeon was a wonderful preacher with a great influence on many lives. He tells us that the desire to be something worth while was aroused in him by a sermon which he heard from a country minister. So a share in Charles Spurgeon's greatness belongs to that obscure country minister.

Into every great man or woman's life there enter innumerable influences and aspirations which help to make them what they are. Is not each personality which contributed towards the great end, a silent partner in the importance and value of the successful man or woman?

It may be as a mother or sister, as a brother or father or friend, it may be as a teacher or preacher, it may be as an example of the honesty and dignity possible in business life, it may be in any one of the thousand ways that you are influencing or inspiring some other life which is to have large meaning for the world.

Is it not a sunny thought that even if you cannot be great yourself, the Lord gives you the opportunity by doing your corner of the world's work to the best of your ability and being the best kind of a man or woman you know how to say or do some thing that shall inspire someone else to great things?

The Kitchen Cabinet

THE common problem, yours, mine, everyone's, is, not to fancy what we are in for. Provided it could be, but finding first what may be, then find how to make it fair.

Up to our means. —Robert Browning.

HELPFUL HINTS.

Food experts tell us that uncooked sour cream is a splendid broom for the alimentary canal, as it chases away the decay microbes. Butter milk and sour milk are both valuable as cleansers for the system.

When roses or other cut flowers are to be kept an excellent way is to put the stems into cold water in a deep bedroom pitcher, wrap the stems and flowers with dampened newspaper. Keeping the air from the flowers is the real secret and having them damp and cool.

Bolled mutton is improved by the addition of an onion and a teaspoonful of Worcestershire sauce.

To Renovate Oilcloth.—Dissolve carefully, as it is highly inflammable, one and a fourth ounces of paraffin in a pint of turpentine by gentle heat. Apply while warm with a flannel to oilcloth or linoleum. Let it remain twenty-four hours and then polish with a flannel. Use this preparation spring and fall and double the life of the floor covering.

Kerosene put on with a flannel cloth is an excellent cleanser for oilcloth.

In cooking vegetables of all kinds, a wire frying basket is a great convenience, as the vegetables may be removed quickly and dried out, or if the water does not boil away they have a little time before searching to be discovered.

A pair of sheet from baking sheets are a boon to the busy housewife. Have the sides bent, making a very shallow pan and making a place to take hold of in handling. If the sheets are made the size of the oven, a whole row of cookies may be baked with one oven heat. This is an important item when using gas.

A tablespoonful of flour will take the place of egg in a meat loaf when eggs are too high to be used lavishly.

DAILY DIET AND HEALTH HINTS

By DR. T. J. ALLEN
Food Specialist

FOODS WHICH SUPPORT LIFE INDEFINITELY.

Experiments have been made to determine what foods will alone support life, determining that wheat gluten, which is almost pure albumen, supports life indefinitely longer than any other single element. Flesh, of which the lean is principally albumen, will support life indefinitely, as will milk, eggs, nuts, beans, wheat, corn, oats, dates, which contain a large percentage of albumen with other food elements. Milk has been called the perfect food because it contains, in addition to albumen, all the other elements necessary to build brain, muscle and bone; and the same is true of wheat and of some nuts and fruits. The milk of all the mammals contains the same food elements, differing chiefly in the amount and kind of the albumen. Cow's milk is not a perfect infant's food because it contains a larger percentage of albumen than its natural food and of a somewhat different character.

UP-TO-DATE HOUSEKEEPING.

Plain and Fancy Rice Desserts Are Now Especially Seasonable.

By Alice E. Whitaker.

Most cooks think of rice as a dessert material and associate it entirely with sweets. A few understand its value in various breads while to the southern cook belongs the habit of serving it as a vegetable.

Old rice needs longer cooking than new crop and broken rice should never bring full price. This cereal is especially adapted to spring and summer desserts and when made with milk and eggs it is a nourishing food.

In restaurants I have seen business men and women order rice pudding and coffee for their sole luncheon and although it was not a great amount of food no doubt it was one of the best things to be eaten in the rush of the day's work when the wrought-up nerves did not tend to help digestion along.

Rice cooked for hours in plenty of milk, and sometimes called poor man's pudding, is frequently a favorite at men's clubs. If to this simple pudding is added a spoonful of jelly or of whipped cream then it is really a most satisfactory sweet dish.

Rice cream is not a novelty but is always appreciated and the recipe given makes enough for five people. Put one cup of well washed rice into a double boiler with three cups of milk and cook until very tender. Stir at first a few times with a fork but after that it will need no stirring and each grain will be whole and yet thoroughly cooked.

If any surplus is left, drain it off then stir in lightly enough powdered sugar to sweeten the rice. Pile it on a flat dish and dot with cubes of bright colored jelly. Beat whites of five eggs stiff, add five tablespoons of thick cream that have been beaten with three level tablespoons of powdered sugar and one-third teaspoon of vanilla. Beat all until light, then pile roughly over the rice and serve at once.

Rice and dates form another dessert. Scatter one cup of rice into two cups of boiling water and two cups of milk heated to the scalding point. Cook until the liquid is absorbed, add powdered sugar to taste and one-half teaspoon of lemon flavoring stirring it in with a fork.

Have one cup of stoned dates cooked in one cup of sugar until tender and cool them. Put the hot rice in a serving dish garnish with the dates and serve with whipped cream.

Rice pudding does not sound inviting but in cups it may taste different. Cook one-quarter cup of rice in one cup of milk until the milk is all absorbed. Add one and one-half cups of milk and let come to the boiling point; stir in a rounding tablespoon of butter and cool.

Add one-quarter cup of sugar, a teaspoon of cinnamon, the beaten whites of two eggs and a few drops of vanilla. Put into small baking cups buttered well and set in a pan of boiling water. Bake in a moderate oven twenty-five minutes. A meringue may be made with the remaining white of egg and a rounding tablespoon of powdered sugar.

A variety of baked puddings is as follows: Heat three cups of milk in a double boiler, add a rounding tablespoon of cornstarch mixed with a cup of sugar and cook eight minutes; then add three cups of boiled rice and the beaten yolks of two eggs and any flavoring preferred. When the eggs have thickened turn into a dish and when partly cool cover with a meringue and brown lightly.

Round the Circle.

Chronicle Old Growler (whose subject, as usual, is the country, and how quickly it is going to the dogs).—"And after all, it's your farmer chaps as is at the root of all the evil. You raise the corn, and the corn raises the whisky; whisky raises politicians and politicians raise all the trouble we have in the country."—M. A. P.

Interchange of Trees.

The interchange of trees among the various continents is a most interesting development of modern civilization. Besides the white pine, Europe has taken from us the Douglas fir and the black walnut, and we have taken the eucalyptus from Australia and the Norway spruce, and the Scotch and Austrian pine from Europe.

ALL EUROPE AWAITS

POWERS' DECISIONS

ABOUT LUXEMBURG

Whether It Shall Remain Neutral or Become Subject to Rule of Some Other Nation to Be Decided.

(Special to this Gazette.)
London, March 8.—What future disposition is to be made of Luxembourg? This has been the interesting question that has been most discussed in European chancelleries since the death last week of the Grand Duke William, the ruler of the little buffer state wedged in between France, Germany and Belgium.

Since 1815, and by confirmation under the treaty of London, the king of the Netherlands was sovereign of Luxembourg. Upon his death in 1890, the operation of the Salic law gave the crown to the late Emperor, Alphonse. The Grand Duke Alphonse had only one son, the hereditary Grand Duke William, and the latter had but a daughter.

So the death of the Grand Duke William brings the issue of Nassau to an end, and promises to make the little principality—its total area is hardly more than three times that of New York city—the bone of European contention. France seeks in its acquisition at once a partial compensation for the loss of Alsace-Lorraine and an advantageous weapon for use in the recovery of the long-dormant Rhineland. Prussia, too, appreciates this most clearly. Holland will probably advance a claim to sovereignty, while Belgium doubtless will claim the little territory as geographically her own. To the great Powers the strategic value of the country, to the smaller its forests, orchards and vineyards are the attraction; and the makings of a very pretty quarrel lie in the extinction of the House of Nassau.

Mutual jealousies are pretty sure to militate against the success of any plan for the annexation of the little grand duchy to either France, Germany or Belgium. It is probable that the European Powers will be obliged to hold a conference to settle the matter and that in the end it will be decided that Luxembourg should continue as a neutral state.

In the event of such a decision being agreed upon, it is safe to assert that the late Grand Duke William will be succeeded on the throne by his eldest daughter, the Grand Duchess Maria Adelaide, eighteen years old and one of the prettiest princesses in all Europe. As a matter of fact, the people of Luxembourg already have proclaimed the youthful Grand Duchess as their sovereign.

Contrary to the general supposition there is nothing in the constitution or laws of the grand duchy to debar Maria Adelaide from the throne. When King William in 1890, the Salic law existed in Luxembourg and consequently the female line was debarred from the succession. But some twelve years ago Luxembourg changed the law and enacted a statute permitting the Grand Duke to be succeeded on the throne by the eldest daughter in the event of there being no son.

The Grand Duchess Maria Adelaide is a first cousin of the Duke of Viseu, who married Anita Stewart of New York. Don Miguel of Braganza, the pretender to the throne of Portugal, is her mother's brother. Her succession to the throne of Luxembourg will constitute an addition to the Roman Catholic sovereigns of Europe. For, although her father and grandfather both were Lutherans, yet her mother, the Infanta Maria of Braganza, is a devout adherent of the church of Rome. It is said that she absolutely declined to give her hand in marriage to the then crown prince of Luxembourg, unless he agreed to permit all the children born of the union to be brought up in her faith.

Luxembourg has engaged the anxious attention of the diplomats of Europe for years because the great military road for invading armies from Germany or France lies through it. In area it is almost insignificant. An army could march from the northern to the southern frontier of the country in twenty hours, or from the east to the western in half a day. The withdrawal of six thousand Prussians in 1870, the garrison necessary to man the defenses of the grand duchy, in time of peace, reduced the population one-half. The interior was the new quarter of the city, made possible by leveling the fortifications, has drawn foreign residents to the picturesque

capital, so that its present population stands army of Luxembourg numbers numbers about 20,000. Nearly one hundred soldiers with two officers, all volunteers, guard the historic parapets about which the conflict of Europe battled so long. The entire standing army of Luxembourg numbers less than four hundred volunteers. The chief industries of the grand duchy are stock raising and mining. The people are mostly of German origin, but French is the prevailing language.

FREE!!

A Valuable 72-Page Cook Book Handsomely Illustrated in Colors

Send For It Today!

It is not often that you get an opportunity to secure so valuable a cook book absolutely free—and it is not often we can make the offer. It's too expensive.

72 pages full of the best, most delicious recipes—prepared by the most noted cooking experts the country affords.

Remember, we do not ask you to buy a can of baking powder, or send us one penny. Simply say—"Send me your latest, beautiful cook book" and you will receive it promptly.

Peddlers and house-to-house canvassers have been trying to induce ladies to buy the baking powder they have for sale and as an inducement are offering a cook book, egg beater or some other trinket with every can bought.

To our customers and friends we are offering our handsome cook book absolutely free. If you are in need of one it will be unnecessary for you to buy something you do not want.

Take advantage of this free offer.

Calumet Baking Powder is used by the housewife on account of its wonderful raising quality—its never-failing results—its certainty of producing the most delicious and wholesome food. When these things, and the fact that it is moderate in price, are known, we know the users of baking powder will always buy Calumet.

Send for the cook book today. Address

CALUMET BAKING POWDER CO., Chicago, Ill.

NOTE—Avoid the cheap and big can-powders, for they are not of uniform strength and quality. Sometimes they leave the biscuits and pastry bleached and acid, sometimes yellow and alkaline, and often unpalatable.

DERMA VIVA, THE IDEAL FACE POWDER

Makes face, hands, arms and neck as white as milk and does not show or rub off. Pimples, blackheads, freckles, moth or liver spots cured in a few days. Have handled this preparation for years and recommend it. J. P. Baker & Son. Price 50c.

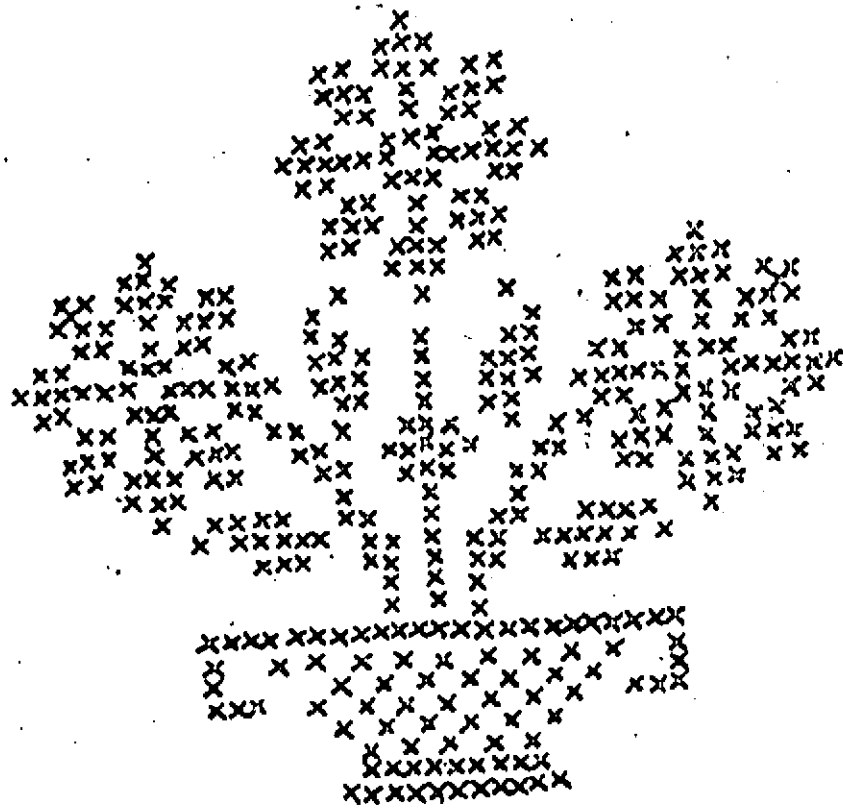

Too rich, far too rich is "fat" chocolate for the human system. Van Houten's cocoa has all the deliciousness—all the nourishment and stimulation of the finest of chocolate—with all the excessive and harmful fat removed. That's why it's the ideal drink—more wholesome and tempting than either tea or coffee.

It will go twice as far as the ordinary cocoa. Your grocer will deliver you a can—to-day—for a quarter.

SCRAP BOOK COUPON

On presentation of three of these coupons clipped on succeeding days from the Daily Gazette, at the Gazette office, a Recipe Coupon Book will be given Free. If the book is to be mailed include 2c postage.

March 7, 1912.

MOTIF FOR CENTERPIECE.

This cross stitch motif worked in colors will be charming on centerpiece or scarf. All the stitches which slant in one direction are done first, and then crossed by those which slant in the opposite way, working from left to right. Colored mercerized cotton No. 14 should be used.

The Power behind the dough

The power behind the dough must be quick and positive in action—it must produce certain, satisfactory results and yet be pure and wholesome. K.C. Baking Powder is the scientific combination of all these desirable qualities. Hundreds of thousands of good housewives know that K.C. has made baking a pleasure, and we ask you for your own sake to try K.C. Baking Powder at least once. Guaranteed pure under all pure food laws. Your grocer will return your money if you are not pleased. It will solve your baking problems.

How to get the Cook's Book Free

The K.C. Cook's Book, containing 99 tested, easily-made recipes, sent free upon receipt of the colored certificate packed in the 25-cent can. Send it today.

EGG EXPORTATION IS A FEATURE OF TRADE

Prices Almost Prohibitive at Home, Still Uncle Sam Sends Millions to Other Countries.

Janesville has just emerged from an egg famine, prices have been almost prohibitive, yet the statistics given of the exportation of hen fruit from the United States, as given out by the Department of Commerce, and labor is interesting in showing that despite the high prices at home, eggs are shipped in large quantities to foreign countries. The following is the report sent out by the department:

Exportation of eggs from the United States last year, notwithstanding high prices, was the largest ever recorded. While current market reports and current discussions of the cost of living indicate unusually high prices in the domestic market for this article of consumption and commerce, the Bureau of Statistics is reporting a larger exportation in this line than ever before. The number of eggs sent to foreign countries in the year ending with December, 1911, was 134,400,000 dozen, valued at two and three-quarters million dollars, while the highest record of any earlier calendar year was eight and one-quarter million dozen, valued at one and three-quarters million dollars in 1907.

In addition to this, there were sent to Hawaii and Porto Rico about one hundred and fifty thousand dozen. Meaning the exportation of eggs in 1911 amounted to less than one million dozen valued at about \$1,300,000.

Trade currents in this article of commerce have shown a remarkable change in recent years. Formerly the importation of eggs was large and the exportation small. A quarter of a century ago an importation of fifteen million dozen eggs was not unusual, the imports of 1884, 1885, and 1886 having in each year exceeded sixteen million dozen, while the exports at that time averaged but about one-quarter of a million dozen annually. Last year the imports were less than a million dozen, while the exports, as above indicated, were thirteen and one-quarter million dozen. The reduction in the importation of eggs occurred immediately following the enactment of the tariff law of 1890 which placed a duty upon that article of commerce, and the imports of eggs which had ranged as high as sixteen million dozen per annum, exceeding fifteen million in the fiscal year 1890, dropped to four million dozen in 1892, one and three-quarter million dozen in 1894, less than one million in 1896, and a quarter of a million in 1898, since which time the number sold exceeded three hundred thousand dozen until 1910, when the number imported increased to over eight hundred dozen and in 1911 to one and one-half million dozen. In the calendar year 1911, as above indicated, the total was slightly less than one million. On the export side, the number sent out from the country was, in the calendar year 1889, but eighty thousand dozen; in 1890, three hundred and eighty thousand dozen; in 1897, one and one-third million dozen; in 1900, practically

six million dozen; 1907, seven million dozen, and in the calendar year 1911, as already indicated, thirteen and one-quarter million dozen, valued at \$2,700,000.

Cuba, Canada, Panama, and Mexico are the chief countries to which eggs are exported from the United States. The quantity exported in the fiscal year 1911 was to Cuba, four and one-half million dozen, valued at a little less than one million dollars; to Canada, two and one-half million dozen, valued at a little less than half a million dollars; to Panama, a little more than three-quarters of a million dozen, and to Mexico a little less than three-quarters of a million dozen. The remainder went chiefly to the West Indian islands and Central American countries, practically none going to Europe, although certain European countries are large importers of this class of merchandise. On the other hand, the bulk of the eggs imported in the fiscal year 1911 came from England which is itself a very large exporter of eggs. Of the one and one-half million dozen eggs imported in the fiscal year 1911, one and one-quarter million dozen were from England and about a quarter of a million from China and Hongkong. This item of eggs imported does not include the yolks brought from other countries, of which the quantity imported from Canada amounted to three hundred and fifty thousand pounds and from Germany seventy-five thousand pounds in the year ending June 30, 1911.

This large exportation of eggs in the face of the extremely high prices existing in the United States suggests that prices of this class of merchandise must also be high in other parts of the world, and this is confirmed by consular reports reaching the Department of Commerce and Labor, which indicate that prices of eggs and other provisions are unusually high in England, France, Austria, Germany, Spain, Japan, and many other countries.

BROOKLYN

Brooklyn, March 8.—Mr. and Mrs. Frank Mosel, Jr., have been visiting at the home of his parents in Madison.

Mrs. Elsie Bagley and daughter, Thelma, are visiting relatives in Belet.

Gus Adee and family moved this week to Oregon.

Mrs. Sadie Ellis was a Madison visitor Monday.

P. A. Haynes was in Richland Center on business Tuesday.

E. Rasmussen was an Evansville visitor Monday.

Must Be Mutual.

Five numbers need the support of five numbers in others.—Emerson.

CLEVER TALKS FOR THE ADVERTISERS

J. R. Hamilton Writes For the Gazette on the Best Methods of Selling Goods.

In accordance with the Gazette's policy of rendering superior service to its readers, not only in the collection and presentation of the world's news, but also in securing the most able contributors for its columns, it announces a departure from the ordinary newspaper matter. It presents a new series of Merchandising Articles, which will be written for it exclusively by one of America's recognized leaders in this field—Mr. J. R. Hamilton.

Mr. Hamilton was formerly the Sales and Advertising Manager of the great Wanamaker store at Philadelphia, where his success was phenomenal that he gained a reputation as the foremost authority in this field of work in America. So wide

J. R. HAMILTON

spread was the recognition accorded him that he received calls from all over the country, and accepted in succession offers from Rothschild's of Chicago, Prager's of San Francisco, Jones and Company of Kansas City, each of which is to its respective city what Wanamaker's is to Philadelphia, and for each of which Mr. Hamilton achieved the same striking success. This success was due to his recognition of the fact that a store can become great only in the main measure as it increases its usefulness to the men and women who buy the goods in its community. The skill and wide knowledge which he brought to bear upon the problems of pointing out, in the advertising of these stores, the particular articles which were bargains at particular times, the comparative values and uses of different goods, and other specific information enabled the community to buy at a big saving.

In these articles Mr. Hamilton will point out to you how, when and where to buy merchandise in this city with the greatest profit to yourself. Very often the most important article in a newspaper to you is not that which tells where the last railroad accident occurred, or what is the news of the trouble in Mexico, but where you can buy your spring suit to your best advantage from the point of cost, style, material and the scores of other considerations that enter into the question.

A great store might contain thousands of different articles which you might buy, but only a few of which would be vitally necessary, extremely useful or valuable at any particular time. Consider what it would mean to you to have the place where you can obtain these pointed out just at the right time.

The Hamilton Merchandising articles will be on Tuesday and Friday of each week. You will find them, aside from the immediate profit they will give you, absorbingly interesting from the standpoint of the general information they contain. Each one is a chapter in the fascinating romance of merchandising.

SUBSTANTIATE INCREASE IN WAGES FOR RAILROADS.

There were substantial increases in the wages of railway employees during the fiscal year 1911. Reports filed with the Interstate Commerce Commission show that the total compen-

sation to the employees of railways over 200 miles long was \$1,005,277,219. The total wage cost to the railways for the year was greater by \$11,808,822 than it would have been at the rates of pay in effect during 1910, and greater by \$69,297,678 than it would have been at the rates of pay in effect during 1909.

Notwithstanding an increase of 2108 in the miles of railway operated, there were fewer employees on the payrolls June 30, 1911, than on June 30, 1910, by 31,637, yet the total compensation paid to employees during 1911 was greater than that paid during 1910 by \$19,976,216. This is greater than the increase in the gross earnings of the railways by \$22,595,121. The net revenues of the railways, which are what is left after paying operating expenses, fell off by \$40,988,539 during this same period in which compensation increased nearly fifty million dollars.

These figures are summarized from Bulletin No. 24 of the Bureau of Railway Economics, which is based on official reports made by the railways to the Interstate Commerce Commission, and which exhibits in detail a comparison of the aggregate compensation to different classes of employees, the number of employees of different classes, and the relation to railway traffic for the fiscal years 1909, 1910 and 1911.

The summary of revenues and expenses of the steam railway over fifty miles in length for the month of December, just issued by this Bureau, shows that for the calendar year 1911 the total operating revenues were less than for the calendar year 1910 by \$27,608,780, and the net revenues less by \$22,595,121.

INVITE LOCAL CLUB TO SEND DELEGATE

Secretary Nagel Writes of Gathering of Commercial Club Representatives in Washington.

Secretary F. E. Lane is in receipt of a communication from Secretary of the Interior Nagel outlining President Taft's plan for the organization of a national body which has the commercial interests of the whole United States in mind. The Commercial club of Janesville is invited to send a delegate to Washington on April 15 to take part in the big meeting scheduled for that date. The following is Mr. Nagel's letter:

"Gentlemen: The president of the United States on March 1st signed a statement, which is enclosed with this letter, in which attention is invited to the great value that would result from the establishment of a national organization broadly representative of the commercial interests of the whole country.

"In accordance with the terms of this statement, which assigns to the Secretary of the Department of Commerce and Labor the duty to initiate a movement for the establishment of such a national organization by calling a meeting of representative commercial and industrial associations of the United States for the purpose of considering the question and outlining the principles by which such an organization should be governed, your association is invited to designate representatives to take part in such a conference to be held in Washington, D. C., on April 15, 1912.

"Respectfully,
"CHARLES NAGEL,"
"Secretary."

SURPRISE PARTY GIVEN AT W. HENRIKSEN HOME.

Peter and Johanne Henriksen Those Honored—Large Number Present—Other La Prairie Items.

ALL DRUGGISTS

SEVERAL ACCIDENTS OCCUR AT CLINTON

Child Badly Burned by Falling
Agnat Stove.—Man Bit by Pet
Dog.—Another Has Bad
Tip-Over.

[SPECIAL TO THE GAZETTE.]
Clinton, March 6.—The little four-year-old daughter of Mr. and Mrs. George Hottel, west of town, fell against a hot stove Sunday evening and badly burned her right hand in fact, in one place it is literally cooked. The unfortunate child suffered great pain.

Has Bad Tip-Over.
W. A. Seaver had a bad tip-over Monday while breaking a colt. The horse turned a corner pretty lively and the cart with runners on tipped over throwing Mr. Seaver heavily to the ground. A bystander caught the colt before much damage was done.

Bit by Pet Dog.
Hon. R. S. Jones had the back of his right hand badly lacerated by the family pet dog Tuesday morning. The dog did not approve of Mr. Jones' reading him. A physician cauterized the wound and it is not expected any serious results will occur.

J. F. Kommerer reports the following real estate transfers of Clinton property: R. G. Salsbury and wife have bought the S. P. Swanson farm north of town formerly owned by H. H. Hottel, 103 acres \$11,220 spot cash. Carl Hottel bought the Johnson farm east of town on lake shore drive, 30 acres for \$5,000.

A. Woodard, Sr., who has been visiting his son George in Texas has returned here. Mr. Woodard reports George and family are enjoying good health.

Miss Elmore Thomas has the whooping cough.

Mrs. A. S. Woolston has been spending several days in Chicago.

Mr. and Mrs. H. W. Knowlton of Peconica, Ill., arrived from Chicago this afternoon to visit Mr. and Mrs. H. W. Knowlton.

Henry Frank of Darion was in town yesterday visiting his brother. Hon. Kizer visited Sharon yesterday morning and Sharon and Allen Grove in the afternoon on business. Mesdames C. W. Collier and E. H. Hoyer will give a reception Saturday afternoon from 2:30 p. m. to 5:00 p. m. in honor of Mrs. L. G. Goy.

Arthur Larson has been compelled to lay off work for a few days and pay strict attention to an ulcerated tooth.

Mrs. H. A. Anderson is sick with the grippe and is being cared for by her daughter, Mrs. George Torpington. Mrs. T. B. Rowder and Mrs. R. C. Stewart went to Beloit Monday night to see the "Chocolate Soldier." They returned on an early train Tuesday morning.

Mrs. W. R. Northway spent Saturday and Sunday with her parents at Darion, Ill.

Prof. Collings has returned to Clinton and has hired out to E. L. Bonafet to work on his farm for nine months, when he will enter the agricultural college at the university.

MAGNOLIA CENTER

Magnolia Center, March 7.—Baby Meely, who has been on the sick list, is convalescing.

Lou and Sarah Barranger have moved on the place they recently purchased.

George Brigham of Evansville was in town Wednesday.

Flintner spent Tuesday at Janesville.

The Haskins sisters have sold their farm to Frank Kleinmuth of Illinois. The deal was closed Monday by Van Wormer and Van Patten of Evansville.

George Bishop was an Evansville visitor Wednesday.

Mrs. R. E. Achison spent Wednesday evening with her mother, Mrs. U. Setzer.

Misses Letta Walton and Ruth Achison spent Wednesday evening with Mabel and Corah Bishop.

Mrs. M. Harman, who has been visiting relatives and friends at Janesville, has returned home.

S. Wolfe was an Evansville visitor Monday.

TOWN LINE

Town Line, March 8.—The family of J. J. McCrea has been having a siege of the grippe and tonsillitis the past week. All are improving at this time.

Mr. and Mrs. Arthur Jackson and children were the guests of Mrs. Jackson's parents, Mr. and Mrs. John Martin of Beloit, last Saturday.

Dr. Larson is unloading a car load of goods at Beloit and moving them to the Brown farm in H. H. Hottel.

Sold Rock Camp D. N. A. met with 12th holding Thursday afternoon.

Albert Eddy a member of the Silver Arrow Dramatic Society of the Beloit High School, went to Rockton, Tuesday evening to take part in the play "The Blind Princess." This is the same play that was given in Afton a short time ago.

There was a fair attendance at the meeting of the Afton Anti Horse Thief Association at Brinkman's hall Tuesday evening.

The interurban railroad has extended the limit of its school children's tickets north of Beloit, from Cottage Hill, (Mrs. Manua) to Powers. This will benefit Town Line pupils a little. The tickets are good on cars from 7 a. m. until 5 p. m.

SOUTH MAGNOLIA

South Magnolia, March 6.—William Letts was a business caller at Will Swanton's, Friday.

Mrs. C. O. Lawton of Madison spent last week at Frank Van Skike's. Roy Marston is moving his goods onto the Pugh farm this week.

THE REV. BERGMANN RESIGNS HIS CHARGE

Pastor of Milton Lutheran Church
Accepts Call to Bethany, Minn.,
Church.—Announce Recital
Program.

[SPECIAL TO THE GAZETTE.]
Milton, March 8.—The Rev. Aug. Bergmann has resigned the pastorate of the Lutheran church and accepted a call to the church at Bethany, Minn. He will take charge there next month.

Rev. A. E. Coughlin of Fulton will preach at the Congregational church Sunday morning.

George H. Hood has bought the Grace Scott place on Madison avenue and will live there.

Dr. Lac Grange holds its regular meeting Wednesday, March 13, at 10 o'clock.

Miss Florence Clifford has been visiting Milwaukee friends.

The Milton Poultry association meets Saturday evening at the Journal office.

Miss Peterson of Frankville is the guest of Miss Ruth Kammensen.

College students and Edgerton high school teams close the basketball season here Saturday evening.

To Give Recital.
The program of President Daland's organ recital at the S. D. R. church, Thursday evening, March 14, follows: Overture—"Rienzi" Wagner; Adagio, Op. 35, Mendelssohn; Legende, Op. 35, Mendelssohn.

Three Characteristic Marches: Religious March, Gullmanti; Funeral March, Chopin; March from "Aida," Verdi; Scena da Ballet, De Beriot.

Selections from "Lohengrin," Wagner; Introducing the Bridal March and Chorus and the Finale to the first act.

INTERMISSION
Improvisation, exhibiting various organ stops.

Pastorale in F, Kullak; Segenade, Schubert; Miss Bentley.

Three Wedding Marches: Nuptial March, Gullmanti; Swedish Wedding March, Gullmanti; March from "The Merry Widow," Strauss; "Midsummer Night's Dream," Mendelssohn.

From the Concerto in E minor, Mendelssohn; Andante, Mendelssohn; Allegro, non troppo, Mendelssohn; Allegro, molto vivace, Mendelssohn.

MONTICELLO

Monticello, March 7.—Mrs. Casper Hum was a passenger to Monroe Monday morning.

Mrs. L. W. Van Soeman spent Tuesday in Monroe.

O. J. Parsons was in Monroe on business Tuesday.

Ed. Whitner had business at Monroe Tuesday.

Emory A. Odell was in town from Monroe Tuesday afternoon.

Mrs. Edward Blumer was a Janesville visitor Tuesday.

J. C. Steinhilber had business at Monroe Tuesday.

J. C. Freitag had business at the county seat Monday.

J. J. Schuttler and Edward Schuttler had business in Janesville Tuesday.

Mr. and Mrs. Hatz Vaughn of Mt. Pleasant township spent Tuesday at Monroe.

A. C. Trautsch of Clara was visiting Monticello relatives yesterday.

Mrs. J. J. Broyles returned Tuesday evening from a short visit with her parents, Mr. and Mrs. F. W. Humation, of Madison.

After a week's visit at the home of Mr. and Mrs. C. E. Odekerk, Miss Ethel Dagenhart returned on Monday to her home at Barguevelt.

Mrs. J. J. Aultman and E. J. Blum drove to Now Glarus Tuesday evening, where they attended a party given by the Beaver Queens.

Mrs. Ed. Harvey of Elgin is a guest at the home of her sister, Mrs. J. H. Harlow.

Mrs. W. H. Clark and Charles Clark spent Tuesday at the county seat.

Albert Hubler of Mt. Pleasant township was in Monroe on business Tuesday.

Mrs. Barbara Waelt of Monroe is here on a visit to her daughter, Mrs. Otto Babler.

Attorney W. A. Loveland was off to Monroe Tuesday on business.

ALBANY

Albany, March 6.—The bride and groom, Mr. and Mrs. Hattie Wythe, returned Saturday evening from an extended trip through the east. While away they visited Niagara Falls, Buffalo and East Aurora, New York.

George Ostrander and daughter, Ida, visited Mrs. A. B. Comstock at the Madison sanitarium last Wednesday and Thursday.

Born, to Mr. and Mrs. Robert Luchinger of Beloit, on March 6, a son. Mrs. Luchinger was formerly Miss Nettie Luce of this place.

The moving picture shows given in the opera house last Thursday, Friday and Saturday evenings was very good and everyone who attended enjoyed them.

The Baptist church parsonage last Wednesday afternoon. They will live on the farm of the groom's father, about four miles southeast of here.

E. H. Burdette, proprietor of the City restaurant here, was married to Miss Iva Setzer of Orfordville, last Saturday.

IMPORTANT HEALTH STATISTICS GIVEN

State Has Birth Rate of Twenty-two
Per Thousand and Death Rate of
Twelve a Thousand.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., March 8.—Statistics compiled by the state board of health show there are in Wisconsin each year approximately 52,000 births, 28,000 deaths, and 18,000 marriages.

This corresponds to an annual birth rate of about 22 per 1,000 gross population; a death rate of 12 per 1,000; and a marriage rate of about fifteen persons married per thousand population.

Based on the mortality rates for each disease, there are in this state every year an average of 4,500 cases of typhoid fever, 2,000 cases of smallpox, 5,000 cases of scarlet fever, 1,700 cases of whooping cough, 5,700 cases of diphtheria, 900 cases of croup, 2,200 cases of influenza, 300 cases of dysentery, 1,400 cases of erysipelas, 1,400 cases of general septicaemia or blood poisoning, 23,300 cases of tuberculosis, 1,400 cases of meningitis, 11,000 cases of pneumonia, and 370 cases of puerperal septicaemia. This gives a grand total of 85,900 cases of preventable illness, and results, it is estimated, in an annual loss in the earning power of the people of more than \$10,000,000. This is in addition to the cost of treatment.

Factory Law to Be Enforced in State
New Law Will Be Enforced. Best of All States Following Inspectors' Meeting at Madison.

Madison, Wis., March 8.—An enforcement of factory laws in Wisconsin as any in the state in state law will follow a conference of state factory inspectors, women assistant superintendents, and inspectors of the state bureau of labor, who are holding daily sessions here this week. The meetings are designed to familiarize the inspectors with Wisconsin's new laws governing working hours child labor, sanitation, safety, etc.

Miss Marie L. Oberauer and Miss Marie Bradley, formerly of the University of Wisconsin, said to be two of the best factory inspectors in the federal service, are adding the Wisconsin of details.

Miss Oberauer led a discussion yesterday afternoon on occupational diseases in laundries. The advisability of laymen questioning on medical matters was considered. Miss Oberauer would have physicians make a thorough medical diagnosis of our players in laundries, etc.

Care should be taken, who said, to avoid irritating both employees and employers in their efforts to get the facts. Miss Oberauer said the heat in some laundries in summer is unbearably high, and some means of detecting it is necessary.

State Factory Inspector Ira Lockney said he gauged the heat in an Oshkosh laundry at 120 degrees. "A foreman saw him do so and slyly shut off the gas."

"Excessive vibration" in buildings architecturally adapted to factory work and the use of heavy machines was criticized as bad for the physical well-being of employees. Nervous wrecks worn said to result. Inspector Lockney told of a foreman who learned to walk around the factory on tiptoes to reduce the vibratory effect on his body, until by force of habit he walked constantly on tiptoes in his own home.

C. W. Price, assistant to the industrial commission as supervisor of safety work, discussed safety measures, with especial reference to the guarding of machinery. He spoke this morning on sanitation. Taylor Fraz and Factory Inspector J. L. Norris will speak this afternoon on child labor.

Cainville Center
Cainville Center, March 7.—The Haskins sisters have closed the sale of their farm of 120 acres to Frank Kleinmuth, the consideration being \$12,000.

Mr. and Mrs. Wm. Reese spent Wednesday with their daughter, Mrs. William Woodstock, and family.

Mr. Klemmeyer spent part of last week in Chicago.

Mr. and Mrs. Frank Bennett were Evansville visitors Wednesday.

Alvin Ruman had the misfortune to lose the horse he had recently purchased from Leslie Townsend. In moving to their home near Orfordville the animal got overheated and they gave it water while warm, causing its death.

Ether Woodstock is slowly gaining from a stroke of a grippe.

The Finerman brothers are hanging paper for Mrs. Warren Andrew this week.

Mr. and Mrs. A. P. Townsend were Tuesday and Wednesday visitors in Janesville.

Mr. and Mrs. Wilbur Andrew were entertained Wednesday at Glenn Clark's.

George Townsend transacted business in Janesville on Tuesday.

Dave Andrew recently sold a horse to Mr. Phillips of Evansville.

The marriage of Charles Moody of North Muskegon to Maude Crawford of Magnolia took place Feb. 28th at Rockford. After a short wedding trip the young couple will go to house-keeping on the Hatfield farm west of Evansville.

James Plunket of Poolville shipped a carload of sheep from this station Wednesday.

Mrs. Jennie Hopkins of Milwaukee visited from Saturday until Tuesday with her brother, Warren Andrew, and family.

Wm. Levzow and family are moving to the farm they recently purchased from Mrs. Hyatt Weaver.

Lou Harringer and sister are nicely situated in their new home.

SICKNESS INSURANCE ADVOCATED IN STATE

Dr. Charles McCarthy of Legislative
Reference Library Favors New
Insurance Measure.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., March 8.—Now that workers in Wisconsin are insured against loss by accident, the state may go a step further and provide sickness insurance. Such a measure will receive serious consideration before the next regular session of the legislature.

It is argued that so far as it incapacitates one from earning a livelihood, sickness is in the same category with accidents, and that sickness insurance is reasonable and elsewhere has proven feasible and popular.

Dr. Charles McCarthy, chief of the legislative reference library, whose work is the framing of legislation is strongly in favor of such protection at the hands of the state.

"I think that the next legislature will adopt some kind of compulsory sickness insurance," he said today. "We have had a precedent in the accident insurance and the workmen's compensation act, but I believe that we ought to have as good sickness insurance laws as there are in Germany today, and it will not be long before we will get them. In Germany when a poor woman is sick the doctors come and take care of her and it costs her nothing, as the expense is paid out of the sickness insurance and the government naturally does not want the illness to continue long. This kind of insurance is paid partly by the worker, partly by the employer and partly by the state. In this country people do not go to a physician when they are absolutely necessary that they should for fear of the large cost. I have in mind at the present time a young man who may have an operation performed or spend a long time in a sanitarium. This young man has four children and a mother dependent upon him. Under the German laws he would be taken care of. Under the American conditions it will involve an enormous cost and no doubt the young man has been working for several years now when he should have had this condition cured long ago."

"Sickness insurance is no experiment. It will save many times over its cost to the state in the end in efficiency of our people and I believe in it heartily and we add it to our other progressive laws. It is necessary to say that the constitution is in the way of it. Our courts have taken a very liberal point of view in this matter and we are better equipped than any other state in the country to go ahead with such a system."

ANNOUNCEMENT
Paid advertisement; amount paid, \$1.00 each insertion.

I hereby announce my candidacy for the office of Mayor of the City of Janesville at the coming primaries to be held on the 19th day of March, 1912.

The Citizens of Janesville: Reaffirming the responsibility of the office I am about to seek and fully conscious of the duties of said office, and with a full belief that I could bring to said office a knowledge gained by long experience in the municipal affairs of our city, which would be of material benefit to the taxpayers and citizens in general, and particularly, now that we are about to enter upon a new form of government.

Therefore I seek the nomination and election to the office of Mayor. Should I be entrusted with the honorable and important duties of said office, I can only promise, to the best of my ability, an honest, economical, industrious and faithful administration of the duties in a plain, business-like manner.

Soliciting the support of my fellow citizens and submitting my past public record to stand in judgment of my future actions, I am,

Yours truly,
JAB. A. FATHERS.

ANNOUNCEMENT
Paid advertisement; amount paid, \$1.00 each insertion.

I hereby announce myself a candidate for Commissioner at the coming primary election, and solicit the support of the voters.

MICHAEL MURPHY.

ANNOUNCEMENT

DOINGS OF THE VAN LOONS—Father may not have been wise to Etiquette but he is learning mighty quick.

THE WAY OF A MAN

By EMERSON HOUGH

Copyright, 1907, by the Outing Publishing Company

Orme smiled, showing his long, narrow teeth. "I've been a bit busy for that," he said, "but perhaps my time has come."

Now turned toward the big square of the parade, which had by this time wholly been taken over for the purposes of military occupation. A vast canopy covered the dancing floor. Innumerable tents for refreshments and wide draped marquees with chairs were springing up, men were placing the decorations of flags and bunting about the dancing floor with braided ribbons and past resisters. Through now filled the open spaces, and more carriages continually came. The quarters of every officer by this time were packed. It was a gay scene, one for youth and life and not for melancholy.

"Now, I wonder who is this Ellen?" mused I to myself.

I got into Captain Stevenson's uniform, and my hostess joined me.

"You may know me," said Kitty, "by the pink flowers on my gown."

"I should know you anywhere, Mrs. Kitty," I said. "Now how is this Ellen? How shall I know her?"

"You will not know her at all," "Couldn't you tell me something of how she will look?"

"No, I've not the slightest idea. Ellen doesn't repeat herself. There'll be a row of a dozen beauties, the most dangerous girls in all St. Louis. You shall meet them all and have your guess as to which is Ellen."

"And shall I never know in all the world?"

"Never in all the world. But grieve not. Tonight joy is to be unconfined, and there is no tomorrow."

"And one may make mad love to any?"

"To any whom one madly loves, of course; not to twelve at once. But we must go. See, isn't it fine?"

At once from somewhere on parade there came the clear note of a bugle, which seemed to draw the attention of all. We could see ascending the great flagstaff at the end of the half-way the broad folds of the flag. Following this was hoisted a hoop or rim of torches, which paused in such position that the folds of the flag were well illuminated. A moment of silence came at that and then a clapping of hands from all about the parade as the banner floated out, and the voices of men, deep throated, greeted the flag. Again the bands broke into the strains of the national anthem, but immediately they swung into a rollicking cavalry air.

"Tonight," said Kitty to me "one may be faithless and be forgiven by the morning sun. Isn't it funny how these things go? Such a lot of fuss is made in the world by ignoring the great fact that man is by nature both generous and polygamous. Believe me, there is much in this doctrine of the Mormons out there in the west."

The door was beginning to fill with dancers. There moved before us a kaleidoscope of gay colors, over which breathed the fragrance of soft music. A subtle charm emanated from these surroundings. Music, the slight and odor of sweet flowers, the sound of pleasant waters, the presence of things beautiful—these have ever had their effect on me.

"Sighing," I said to myself that I was young. I turned to speak to my hostess, but she was gone. So there I stood for half an hour, biting my thumb. I had as yet seen nothing of the mysterious Ellen, when I felt a tug at my sleeve.

"Come with me," whispered a voice. It was Kitty. We passed to the opposite side of the dancing floor and halted at the front of a wide marquee, whose flaps were spread to cover a long row of seats.

"Count them," said Kitty. "There are twelve."

And so indeed there were twelve beautiful young girls, no one might pronounce, even though all were masked with half face dominoes. Half of them were dressed in white and half in black, and thus they alternated down the row. Twelve hands handled divers fans. Twelve pairs of eyes looked out, eyes merry, or challenging, or mysterious, one could not tell. About these young belles gathered the densest throng of all the crowd.

At each fair charmer as I bowed I looked with what directness I dared to see if I might penetrate the mask and so full Kitty in her amiable intentions. As we passed out at the foot of the row I recalled that I had not heard the name of Ellen.

"Now, then, which one is she?" I queried of my hostess.

"Silky, do you want me to put your hand in hers? You are now on your own resources. Play the game." And the next moment she again was gone.

I had opportunity without rudeness, the crowd so pressing in behind me, to glance once more up the line. I saw, or thought I saw, just a chance glance toward where I stood, near the foot of the row of Mystery, as they called it. I looked a second time and then all doubt whatever vanished.

It was this girl in the black lace, with the gold comb in her hair and the gold shot little shoes just showing at the edge of her gown and the red rose at her hair, held down by the comb, half hidden by the pile of locks caught up by the ribbon of the mask. If this girl were not the mysterious Ellen, then indeed must Ellen look well to her laurels, for here, indeed, was a rival for her!

I began to edge through the ranks of young men who gathered there, laughing, beseeching, imploring, claiming. The sparkle of the scene was in my veins. I did not walk—the music carried me before her. And so I bowed and murmured, "I have waited hours for my hostess to present me to Miss Ellen." (I mumbled the rest of some imaginary name since I had heard none.)

The girl pressed the tip of her fan against her teeth and looked at me meditatively.

"And ours, of course, is this dance," I went on.

"If I could only remember all the names," she began hesitatingly.

"I was introduced as Jack C. of Virginia," "Yes? And in what arm?"

"Cavalry," I replied promptly. "Do you not see the yellow?" I gestured toward the facings. "You who belong to the army ought to know."

"Why do you think I belong to the army?" she asked.

"You belong to the army and to Virginia," I said, "because you asked me what is my arm of the service, and because your voice could come from nowhere but Virginia. Now since I have come so far to see you and have found you out so soon, why do you not confess that you are Miss Ellen?"

"We have no names tonight," she answered. "But there is no Jack C. in the Gazette who comes from Virginia and who wears a captain's straps. I do not know who you are."

"At least the game then is fair," said I, disappointed. "But I promise you that some time I shall see you face to face and without masks. Tomorrow!"

"Tut, tut!" she removed. "There is no tomorrow!"

I looked down on her as I stood, and a certain madness of youth seized hold upon me. I knew that when she rose she would be just tall enough, that she would be round, full, perfect woman in every line of her figure; that her hair would be some sort of dark brown in the daylight; that her eyes would also be of some sort of darkness; I knew not what for I could not see them fully through the domino, I could see the hair piled back from the nape of a lovely neck as ever caught a kiss. I could see at the edge of the mask that her ear was small and close to the head; could see that her nose must be straight and that it sprang from the brow strongly, with no weak indentation. The sweep of a strong, clean chin was not to be disguised, and at the edge of the mask I caught now and then the gleam of white, even teeth and the mocking smile of red, strongly curved lips hid by her fan at the very moment when I was about to fix them in my memory so that I might see them again and know. I suspect she hid a smile, but her eyes looked up at me grandly and darkly. Nineteen, perhaps twenty. I considered her age to be gentle and yet strong, with character and yet with tenderness. I made estimate that she must be. There was something that assured me that here was a woman not lightly to accept nor lightly to be forsaken.

"Count them," said Kitty. "There are twelve."

And so indeed there were twelve beautiful young girls, no one might pronounce, even though all were masked with half face dominoes. Half of them were dressed in white and half in black, and thus they alternated down the row. Twelve hands handled divers fans. Twelve pairs of eyes looked out, eyes merry, or challenging, or mysterious, one could not tell. About these young belles gathered the densest throng of all the crowd.

It was this girl in the black lace, with the gold comb in her hair and the gold shot little shoes just showing at the edge of her gown and the red rose at her hair, held down by the comb, half hidden by the pile of locks caught up by the ribbon of the mask. If this girl were not the mysterious Ellen, then indeed must Ellen look well to her laurels, for here, indeed, was a rival for her!

I began to edge through the ranks of young men who gathered there, laughing, beseeching, imploring, claiming. The sparkle of the scene was in my veins. I did not walk—the music carried me before her. And so I bowed and murmured, "I have waited hours for my hostess to present me to Miss Ellen." (I mumbled the rest of some imaginary name since I had heard none.)

The girl pressed the tip of her fan against her teeth and looked at me meditatively.

"And ours, of course, is this dance," I went on.

"If I could only remember all the names," she began hesitatingly.

"I was introduced as Jack C. of Virginia," "Yes? And in what arm?"

"Cavalry," I replied promptly. "Do you not see the yellow?" I gestured toward the facings. "You who belong to the army ought to know."

"Why do you think I belong to the army?" she asked.

"You belong to the army and to Virginia," I said, "because you asked me what is my arm of the service, and because your voice could come from nowhere but Virginia. Now since I have come so far to see you and have found you out so soon, why do you not confess that you are Miss Ellen?"

"We have no names tonight," she answered. "But there is no Jack C. in the Gazette who comes from Virginia and who wears a captain's straps. I do not know who you are."

"At least the game then is fair," said I, disappointed. "But I promise you that some time I shall see you face to face and without masks. Tomorrow!"

"Tut, tut!" she removed. "There is no tomorrow!"

I looked down on her as I stood, and a certain madness of youth seized hold upon me. I knew that when she rose she would be just tall enough, that she would be round, full, perfect woman in every line of her figure; that her hair would be some sort of dark brown in the daylight; that her eyes would also be of some sort of darkness; I knew not what for I could not see them fully through the domino, I could see the hair piled back from the nape of a lovely neck as ever caught a kiss. I could see at the edge of the mask that her ear was small and close to the head; could see that her nose must be straight and that it sprang from the brow strongly, with no weak indentation. The sweep of a strong, clean chin was not to be disguised, and at the edge of the mask I caught now and then the gleam of white, even teeth and the mocking smile of red, strongly curved lips hid by her fan at the very moment when I was about to fix them in my memory so that I might see them again and know. I suspect she hid a smile, but her eyes looked up at me grandly and darkly. Nineteen, perhaps twenty. I considered her age to be gentle and yet strong, with character and yet with tenderness. I made estimate that she must be. There was something that assured me that here was a woman not lightly to accept nor lightly to be forsaken.

"Count them," said Kitty. "There are twelve."

And so indeed there were twelve beautiful young girls, no one might pronounce, even though all were masked with half face dominoes. Half of them were dressed in white and half in black, and thus they alternated down the row. Twelve hands handled divers fans. Twelve pairs of eyes looked out, eyes merry, or challenging, or mysterious, one could not tell. About these young belles gathered the densest throng of all the crowd.

At each fair charmer as I bowed I looked with what directness I dared to see if I might penetrate the mask and so full Kitty in her amiable intentions. As we passed out at the foot of the row I recalled that I had not heard the name of Ellen.

"Now, then, which one is she?" I queried of my hostess.

"Silky, do you want me to put your hand in hers? You are now on your own resources. Play the game." And the next moment she again was gone.

I had opportunity without rudeness, the crowd so pressing in behind me, to glance once more up the line. I saw, or thought I saw, just a chance glance toward where I stood, near the foot of the row of Mystery, as they called it. I looked a second time and then all doubt whatever vanished.

It was this girl in the black lace, with the gold comb in her hair and the gold shot little shoes just showing at the edge of her gown and the red rose at her hair, held down by the comb, half hidden by the pile of locks caught up by the ribbon of the mask. If this girl were not the mysterious Ellen, then indeed must Ellen look well to her laurels, for here, indeed, was a rival for her!

At each fair charmer as I bowed I looked with what directness I dared to see if I might penetrate the mask and so full Kitty in her amiable intentions. As we passed out at the foot of the row I recalled that I had not heard the name of Ellen.

At The Theatre

"THE SPRING MAID."
In Dorothy Maynard's impersonation of the saucy Princess Isabella in "The Spring Maid," the class observer has opportunity to study in comparing the methods followed by the study for the stage in this country and in foreign lands, for Miss Maynard is French by birth and gained her training and much of her experience in the Opera House School so favored in France, and with the French National Opera organization, from which also the new famous Tetrazzini came, while all around her in the long cast

CHARLES McNAUGHTON
The English Comedian, as Roland, in "The Spring Maid," Coming to the Myers Theatre.

are Americans trained in the methods of this country.

Miss Maynard was born in Rouen, France, and lived her earliest years in that city and in Paris. Then her parents came to America and settled in Chicago, but the daughter's voice was considered good enough to repay a careful training, and she was sent back to Paris to study under the noted Oscar Hansen, who was a life-long friend of her father's. She studied another year with the celebrated Padulo in Paris, and then joined the French National Opera organization which was coming to America by way of the South American capitals and through Mexico. With this company she sang small parts in "La Boheme," "Traviata," "Carmen," and in "Paderewski's" "Maurice," and returned abroad with this company to sing in the Riviera Opera Company which sang a repertoire of the best known of French Opera Bouffe favorites. Later she came to America and appeared with the Grace Van Studdford Company to sing the opposite parts to the star in "The Red Feather."

So much of the natural vivacity the public has learned to expect from the foreign trained and foreign born singer is noticeable in Miss Maynard's performance that an audience easily traces a great similarity between her methods and those of the

other French born players, Anna Held and Fritz Scheff, leaving the question to be decided as to how much the fascination in a player's appeal comes from the birth and foreignness of the artist, and how much from the general stage training and personality. "The Spring Maid" will be presented at Myers Theatre, on Tuesday, March 19.

JULIA MARLOWE ON THE STAR SYSTEM.

The enormous business that Southern and Marlowe enjoyed at Manhattan Opera house, New York, and during the past two weeks at the Lyric Theatre, Philadelphia, confirms the trend of critical opinion that the star system is on the wane. Although Southern and Marlowe came to Philadelphia this season without having added a new play to their Shakespearean repertoire, the business exceeded anything that they have experienced in that city.

The advance bill orders—before the regular window sale was open, and before any paper had been posted on the billboards—amounted to nearly twenty thousand dollars. This is the largest advance sale that Southern and Marlowe have ever had in that city. Then, too, the receipts each night were in excess of any corresponding night of last season.

The business of this company has reached that point in New York, Philadelphia and other cities, that the theatres are not large enough to accommodate the throngs of people who wish to see them in their Shakespearean repertoire. With Grand Opera and the Horse Show as the opposition in New York, they had packed houses every night at the Manhattan Opera house. The takings for the last two weeks amounted to nearly thirty thousand dollars.

From this it may be taken that the "star system" possibly is not dead; that is, so far as the two inflexible stars are concerned.

Miss Marlowe was interviewed and had the following to say on the subject: "Persons who distinguish themselves in any line of endeavor become leaders, or as we say in the theatre—'stars.' Michael Angelo was a star; Columbus was a star; Pearly is a star. Any person who excels his fellows to the extent of leading, is a star."

"In the theatre it is the custom, among persons who do not consider sufficiently to condemn the star as an impediment to the end. A moment's reflection will show you that such men as Garrick, Edmund and Phelps, the Booths, Barrett and Forrest, and such women as Siddons, Nelson, Terry, Cushman, Mary Anderson and Rachel, have been the sole reasons of keeping alive the classic drama—and the plays of Shakespeare."

"The actors who desire to distinguish themselves in the best and noblest dramas, present them at the expense of great labor, discouragement, and financial sacrifice."

"These plays were written for stars; that is to say, actors of great and exceptional ability. These actors have usually made themselves by dint of great ambition, labor and sacrifice; and they have been, and ever will be, the pillars of the stage."

"The saying from 'Hamlet'—'The play is the thing,' is often wrongly applied. The play is not the thing

of itself; properly acted, it is the thing; badly acted, it is something that everybody stays away from."

"A manager once boasted that—'We have no stars in our theatre.' Somebody replied—'That is evident!'"

"The 'star system' is open to criticism; that is, the system of placing actors in the position of playing a leading part for several seasons—merely to hang plays on. But the advent of a 'star' needs no herald. Seldom like Garrick and Keen do they emerge in a day; but they are more often born than made, and the light they shed is the most illuminating thing in the theatre."

"The theatre is a place for acting. Plays can be read in the study. The theatre is upheld by stars; that is, by actors of supreme excellence."

"THE SERVANT IN THE HOUSE."
Only a cast of exceptionally intelligent players trained in the hard school of experience could do justice to the difficult roles in "The Servant in the House," the sensational, successful and epoch-making play which is to be presented at the Myers Theatre on Tuesday, March 12. There

SCENE FROM "THE SERVANT IN THE HOUSE."

is not a "straight" part in the play. Each character is strongly individualized and vividly drawn human beings, and only players capable of assuming difficult genre roles can meet with any success in the play. It is a remarkable company which Gaskell and MacVitty is adding to this city for the presentation of this drama, a company headed by Hugo B. Koch and which includes no less than three players who have been stars in their own right.

EX-PRINCESS SEEKS TO SECURE DIVORCE

Countess Montignoso, Formerly Crown Princess of Saxony, Wants Separation from Enrico Toselli

(SPECIAL TO THE GAZETTE.)

Rome, March 8.—The trial of the suit of the Countess Montignoso, formerly Crown Princess of Saxony, for a legal separation from her husband, Enrico Toselli, was begun here today, and promises to be replete with sensations. In her petition the former Princess accuses Toselli with having misappropriated money and jewelry belonging to her in order to lead a vicious, lazy, and immoral life, and further alleges that during her absence Toselli invited notorious women to their villa, decked them out in her finery, and afterwards escorted them through the streets of Florence.

Signor Toselli has made no public statement in regard to the suit, but his friends declare that many of the accusations made against him are false and he is expected to make a vigorous defense. It is hinted also that he will bring serious countercharges against his wife, the former Princess.

Princess Louise, or the Countess Montignoso, first came into notoriety in 1902 when she disappeared from the court of Dresden and was not located for several days, when she was found in Geneva in company with M. Giron, a former tutor of her children, who had been ordered out of Saxony on account of his attentions to the Princess. It was said that the married life of the Crown Princess and her husband had been very unhappy on account of the Princess's fidelity, but King George insisted that his son should get a divorce, which was granted on February 11, 1903.

The Princess and Giron at first seemed to be very happy, going from Geneva to Mentone. Then came the serious illness of Prince Christian, the eldest child of Crown Prince Frederick and Princess Louise, and the mother agreed to part with Giron if allowed to see her son. This was refused, but Louise did not go back to Giron.

After her flight Louise assumed the title of Countess Montignoso, and was granted an income of \$7,500 a year from her former husband. The Countess then came to Italy, where she had an affair with the Marquis Gilecardine, which caused the latter to leave him and sue for divorce. Louise next met Signor Toselli, who was a music teacher with a very modest income. They eloped to London, where they were married in 1907. The pair have not lived together for nearly two years, but not until recently were any steps taken looking to a legal separation. The fact that the Countess now seeks her freedom has given rise to a report that she has another matrimonial venture in view and consequently desires to rid herself of the Italian plaintiff.

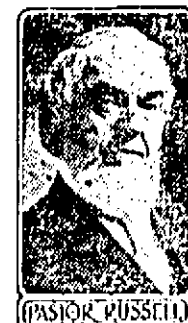

Woman Took Dare; Poised on Chimney.

Dared to climb a 125-foot chimney in process of construction at Torrington, Conn., Mrs. Guy Noelle mounted to the top and posed there several minutes enjoying the view. To get there she had to climb rickety ladders all the way.

THE STONE WITNESS OR GREAT PYRAMID

God's Altar in the Midst of the Land of Egypt.

Its Symbolic Teachings Corroborate Science and the Bible, Refuting Evolution and Higher Criticism—It Indicates Distances to Sun, High Calling of Church and Hope of the World.

PASTOR RUSSELL

Cairo, Egypt, March 5.—The Committee appointed by the International Bible Students Association to report on Foreign Missions is here, instead of visiting the missions of eastern and southern Africa, they will recommend another commission for Africa and Australasia, etc.

We report Pastor Russell's discourse of today, from the text which he said referred directly to the Great Pyramid located near this city: "In that day there shall be an altar to the Lord in the midst of the land of Egypt, . . . for a sign and for a witness." (Isa. xix, 19, 20.)

Not only did this mention prophetically in Isaiah the great Pyramid, but also in Jeremiah xxxii, 29, where we read that "The signs and wonders in the land of Egypt, even unto this day."

The location of the Pyramid is remarkable, and its size centuries ago marked it as one of the Seven Wonders of the world.

Scientists tell us that the measurement of its base on the four sides, at the level of its sockets, when added, gives as many pyramid cubits as there are days in four years, to the fraction—Including the leap year fraction. The diagonal measurements across the base, N. E. to S. W., and N. W. to S. E., give us many inches as there are years in the precessional cycle of the stars. This cycle astronomers had already concluded to be 25,827 years, and the Pyramid corroborates the conclusion. The distance to the sun is indicated by the height and angle of the Pyramid to be 91,810,270 miles, which almost exactly corresponds with the latest figures reached by astronomers.

Spiritual Lessons Here Taught.

A key suggested in 1848 by a young Scotchman, Robert Meuzies, and which began to open the Pyramid's religious lessons, was the Well. He wrote to Prof. Plazzi Smyth, Astronomer Royal for Scotland, "From the north beginning of the Grand Gallery, in upward progression, begin the years of our Saviour's life, expressed at the rate of a year for an inch. Three and thirty inches, therefore, bring us right over against the mouth of the Well." In other words, that W. and the ap-

pearance of an explosion, picture our Lord's death and resurrection. In harmony with this the Downward Passage represents the course of sin and death, leading to destruction. The low Ascending Passage, blocked by the granite "Plug," represents the Law Covenant given to the Jews, but which none were able to keep, because "there is none righteous, no, not one."

From the time of our Saviour the Gospel Dispensation began, symbolically represented by the Grand Gallery. It is a Dispensation of grace or favor, nevertheless its Passageway is deep and narrow, leading to the "Gonf" at the farther end. As the Grand Gallery has an end, so this Gospel Age will have an end. It will accomplish its purpose, which is the gathering of the "elect" to be the Bride of Christ.

Another interesting feature is that the Ascending Passage with its Plug represents exactly the length of the Jewish Age! And, similarly, the Grand Gallery represents an inch to a year the length of this Gospel Dispensation! It indicates that at a certain time the great favor of becoming joint-servants with the Redeemer, and thus becoming joint-heirs with Him in His Kingdom, will terminate.

The King's Chamber Granite.

Before entering the Ante-Chamber or school, the pupil must stoop low, implying humility. No sooner has he risen than he finds himself confronted by a huge granite obstruction, known as the Granite Leaf, and he can make no further progress except by bowing low to pass under it. Symbolically it says, it is not sufficient that you have a desire for Godliness, and faith in Jesus; and a desire to be taught of Him; you cannot go further unless you make a full surrender to God.

The Passage leading from the Ante-Chamber to the King's Chamber is just as low as the Granite obstruction, which seems to say that as the one represents a condition of death of the will, the other represents actual death—only by actual death can our Saviour or any of His followers pass into the heavenly state, symbolized by the King's Chamber; for, "We must all be changed," because "flesh and blood cannot enter the Kingdom of God."

We understand the Horizontal Passageway leading to the Queen's Chamber to symbolically represent the trials and testings that will be upon the human family incidental to attaining human perfection, under the glorious reign of Messiah's Kingdom, when the Church as the Bride of Christ will be associated with her Lord in effecting human restitution to all the willing and obedient.—Acts III, 21-22.

Glory in Doing One's Best.

The reason so many people are not contented and happy in their work is because they do not do their best at it. Never be satisfied with second bests.

Olive Industry Safe.

There is little prospect of the olive industry of this country being overdone, for there are only three localities in this country where the olives will thrive.

CURIOUS BITS OF HISTORY

A CITY CONQUERED BY HUNGER.

By A. W. MACY.

There are few sieges in history more memorable than that of the little city of La Rochelle, France. Here the Huguenots made their last important stand. There were 28,000 inhabitants, half of them females and only half the males armed men. Yet for fifteen months they held in check the combined army and fleet of Louis XIII. When they chose Jean Guiton mayor at the beginning of the siege, he said to them: "You know not what you do in choosing me. Understand me well, that with me there is no talk of surrender. Whosoever breathes a word of it I will kill him." The city was reduced, not by sudden assault, or fire, or sword, or cannon, but by slow famine. Everything was eaten, even down to leather, which was boiled. A cat sold for 45 livres. Not until half the population had perished from hunger, and scarcely 150 of the garrison remained alive, did the survivors consent to surrender.

Christmas in France.

Christmas in France is not a special day for family meetings and merry-making. It is essentially a religious festival.

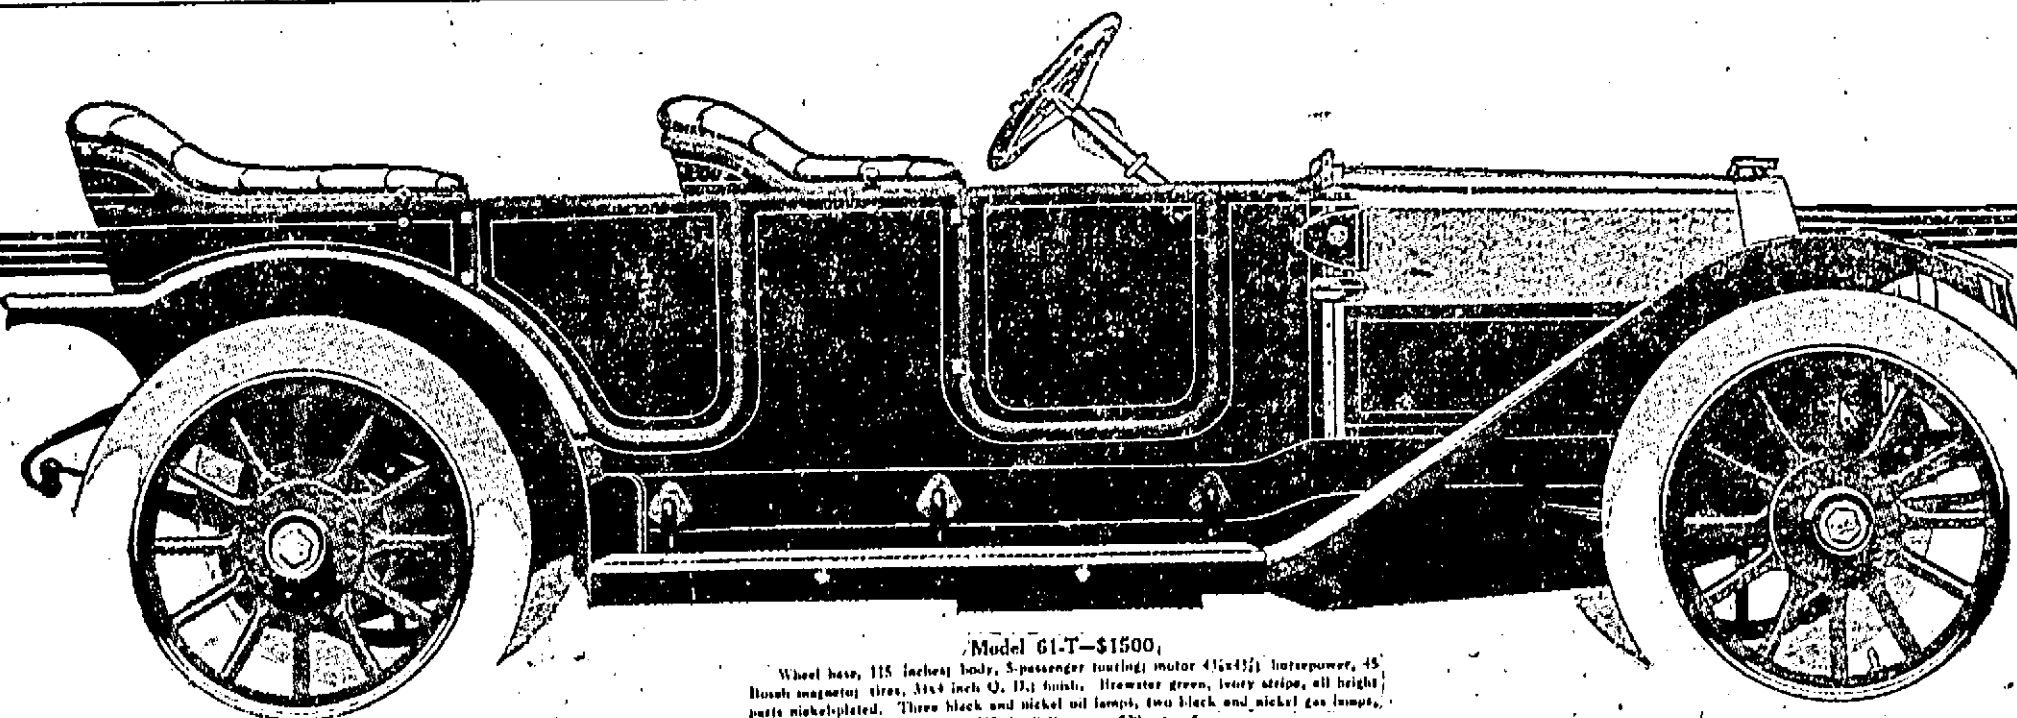

Some Sink Sense

No place in the home gathers grease as quickly as the kitchen sink. Gold Dust washing powder, however, has the peculiar quality of dissolving and cutting grease and if, after each dishwashing, a suds is made in the dishpan with warm water and Gold Dust, and the sink thoroughly rinsed with these suds, the last particle of dirt and grease will be removed. The sink pipe will never become clogged with grease if Gold Dust and plenty of hot water are used for washing the sink morning and evening.

A Cure For Eczema.

Eczema in any form, whether acute or chronic, is easily and rapidly overcome by the use of Meritol Eczema Remedy. Given positive relief when all others fail, and we heartily recommend it to any sufferer.

Reliable Drug Co.
Exclusive Agents.

Model 61-T—\$1500.
Wheel base, 115 inches body, 125 inches; motor 41x51 1/2; horsepower, 45; brake horsepower, 37.5; inch Q. D. 13; finish, Brewster green, ivory stripes, all bright parts nickel-plated. Three black and nickel oil lamps, two black and nickel gas lamps, with gas tank and horn. Price, \$1500. Self-starter, \$20 extra.

Overland Economy in the Production of an Automobile

This 45-horsepower Touring Car—\$1500; equipped with self-starter, only \$20 additional.

A POINT IN ECONOMY is best explained by a comparison of facts and existing conditions. And the clearest method of explanation is a simple set of figures. To start with, an automobile plant can manufacture a car just as economically as its facilities will permit. This fact you cannot dispute. It never varies. Let us see how this figures out. Most of the factories that make a standard forty-horsepower touring car, produce somewhere around 5000 cars a year. These cars range in price from \$1600 to \$1800. Some are as high as \$2000. The Overland plants produce 25,000 cars a year and the price of our forty-five horse-power touring car is only \$1500.

The answer is that we, with our

25,000-car capacity, have five times the facilities as that of the 5000-car factory, and our cost of producing a car is, in consequence, anywhere from 20% to 30% lower.

The explanation of which is, that the 5000-car factory must do the work by hand that we do by machinery, for they lack the automatic equipment; they must buy their materials in small quantities and pay the long price; they must buy parts from some outside source, which we manufacture—thus eliminating the middleman's profit. And no small number of them purchase their motor from some other factory, while we make our motor in our own shops; in fact every bit of every Overland chassis and every part of every Overland body is made in the Overland plants.

These few facts give you the net difference between a 5000-car factory, and a 25,000-car factory, and go to prove that the largest plant can make a better car for less money than the smaller plant.

Take our forty-five horse-power car point by point. See if you can tell the difference between this car and the average \$1800 to \$2000 car. The wheel base of this car is one hundred and fifteen inches. The motor is forty-five horse-power. The pressed steel frame has a double drop. The front axle is a drop forged I section fitted with Timken bearings. The rear axle is full floating, also fitted with Timken bearings. The selective transmission is fitted with the finest F & S annular bearings which are used on the most ex-

pensive cars made. The gear and crank casings are made of pure aluminum. Others use cast-iron. All of the operating levers are in the center of the car. Door handles are located inside. The carburetor is the best Schlebler makes—Model L. The magneto is a Bosch. The tires are big. The body is large and roomy, seating five big people with room to spare. The body design itself is gracefully proportioned. It is finished in deep Brewster green trimmed with heavy bright nickel-plate. Lamps are dead black and nickel-trimmed.

If you wish we will equip the car with a self-starter for only \$20 additional. This starter is the most practical made. On continuous tests under all conditions it will crank a car

ninety-nine times out of a hundred. It is simple and safe. All you have to do is to pull a little lever and your motor spins. Besides that, it is not complicated and is very economical. Use the same gas tank as you do for your headlights.

We doubt if you will find the equal of this car for much less than \$2000. At any rate investigate before you buy. It will prove to be a very economical move. The Overland dealer in your town will be glad to answer all your questions. See him before you buy your car.

Our factory book gives in full the difference in automobile plants and shows why one plant can make a better car for less money than another plant. We will be glad to mail you a copy. Please ask for copy 00.

THIS CAR WILL BE ONE OF THE BIG FEATURES OF THE ROCK COUNTY AUTO SHOW. PAY AT LEAST ONE VISIT TO THIS SHOW AND HELP MAKE THIS EVENT A BIG SUCCESS.
